NUMBER 18.

CHARLES DICKSON ARGUED IN HIS OWN BEHALF IN HEARING TODAY

Decisions from United States Supreme Court are Read to Show Women Cannot Legally Hold Executive Office Even though Granted Right of Suffrage—Attorney-General Spoke Briefly.

(By Associated Press)
AUSTIN, Sept. 24.—Charles Dickson, who brought the suit to have Mrs. Miriam Ferguson disqualified to hold the office of Governor, argued in his own behalf here today against the woman candidate. Dickson is attorney from San Antonio. Attorney Dickson read at length from decisions of the United States Supreme Court in support of his contention that women cannot legally hold public executive office though they have been given the right to vote. L. C. Sutton, assistant attorney-general spoke briefly to the point involved on the constitutional question. Three attorneys were arguing for the defense before the case closed. The conclusion of the hearing is expected today.

TWO ARE HELD HUNN MURDER

CLAIMS RELATIVE OF WOMAN SHOT HER IN HIS PRESENCE—OTHER DENIES

CONVICT DENIES CRIME

(By Associated Press)
PASADENA, Calif., Sept. 24.—Harry Connor, alias Harry Garbutt, was arrested last night in connection with the slaying of Mrs. Clifton Hunn, wife of a wealthy Chicago business man. He told the police that he was in the apartment when the woman was killed, but that she was shot by F. R. Gibson, Gibson, a relative of the woman, told a policeman that the shooting was done by Connor.

BRYAN HIGH TEAM OPENS SEASON WITH ROSEBUD THURSDAY

The opening game of the season for Bryan high school comes on tomorrow afternoon, beginning at 4 o'clock when the local eleven, coached by R. O. Wilson, after about three weeks of diligent and almost constant training, will meet the fast and heavy Rosebud squad from Rosebud high school. The Rosebud team is coached by Mullie Lenoir, All-Southern halfback on the University of Alabama team. They defeated Kossie last year 64 to 0 when Bryan had difficulty in winning from Kossie by the close score of 6 to 0. Bryan, however, has a heavier and faster team this year than last and they will no doubt be better-coached, and will have had some splendid training to their aid when they enter this game. But the team can do but little without adequate support and the support that is needed is not only in a financial way but in the presence of rooters who will show their belief in the men and the team which will do much to carry the team far up in the State championship race.

Mrs. Bill Wimberly of this city was called to Houston last night by telegram announcing the illness of her sister.

COTTON MARKET

Cotton futures closed today 50 points down; local spots 21 1-4 cents, middling basis.

HERBERT GRIFFIN IS GIVEN TWENTY-FIVE YEARS FOR MURDER

(By Associated Press)
FT. WORTH, Sept. 24.—Herbert Griffin, accused of killing Hugh Reilly, Jr., was convicted and given a 25-year sentence by the jury at Graham today. The trial lasted 10 days. Both were prominent West Texas ranchmen.

GOOD MEETING BRYAN ROTARY CLUB TODAY

Following the luncheon hour at the Green Parrot and the introduction of visitors, the singing of songs, led by S. Moylan Bird, the meeting of the Bryan Rotary Club today was turned over to W. E. Farmer as program leader. After a few words in commendation of scout work he introduced C. C. Ragan, scout executive for this district who urged the formation of two or three troops to be sponsored by the Rotary Club as the Lions have agreed to do, and the appointment of scoutmasters to look after this work, with preliminary training in a scoutmasters' school. Following his talk, President Wilson asked for volunteers and the following men agreed to undertake this work of service to the youth of the city: W. S. Barron, Todd R. White, J. L. Reese and C. S. Beckwith.

Three Points Stressed.
Then, after a few words of praise for the student loan fund and stating that the Western Public Service Company was endeavoring as far as possible to employ boys who were working their way through school, Program Leader Farmer called on County Attorney Oak McKenzie for a few remarks along this line. Rotarian McKenzie said that he had three things on his mind that he wanted to get out while he was permitted a place on the program. The first one he said was in regard to support of the Bryan high football team in its game with Rosebud tomorrow and throughout the season. He said that the boys played better when they knew that some business man was observing their play and their spirit and that he knew this to be a fact from his own experience with one of the boys.

The second thing he wished to stress, he said, was the student loan fund, and added that he had assisted a boy from his home section of the country through his last year of college; that this boy was now in a responsible position and wrote to him frequently in each letter expressing his appreciation and gratitude for the loan that had made his success possible. "It is great to think," said Mr. McKenzie, "that some day that boy of today may be a great man and that I shall have been, at least in part, responsible for his success. Therein will I be repaid."

The third thing he mentioned was his first ideal of Rotary and that he thought the primary spirit to him was the fellowship of the assemblage and urged that matters be arranged so that the members would move about from table to table with each passing week instead of seeking congenial fellows and the same ones each meeting. He said that closer cultivation of members brought better understanding and friendship and that each one of us might know his fellowman better and thus better appreciate him.

The balance of the meeting hour was consumed in business matters, including the appointment of a business methods committee by President Wilson as follows: H. C. Fulgham, chairman; Kay Halsell, W. E. Farmer, Walter Coulter, Oscar Goolsbee. Dr. Humbert, chairman of the educational committee, remarked on the educational programs to be presented and Dr. Black announced those in charge of programs during October.

Visitors present today were: With W. S. Barron, C. C. Ragan; with W. F. Davis, J. H. Evetts and J. D. Conway, both of the Southern Pacific Lines.

PROHIBITION TO THE PHILIPPINES

VOLSTEAD ACT BEING MADE TO APPLY TO UNORGANIZED TERRITORY

NEW INTERPRETATION

(By Associated Press)
MANILA, Sept. 24.—Instruction issued by the State Department at Washington ordering all foreign consuls to refuse to issue bills of health to vessels carrying liquor to the Philippine Islands for beverage purposes were received here today. This ruling of State Department was contrary to the interpretation placed on the Volstead act in official circles here where it was believed that the dry law of the United States did not apply to unorganized territory.

SERVICE IS SET UP BY COOLIDGE BEFORE DRUGGISTS MEETING

(By Associated Press)
WASHINGTON, Sept. 24.—Service and mutual consideration were set up today by President Calvin Coolidge as the guiding principles in the relation between government and business, in a talk to delegates to the convention here of the National Association of Retail Druggists. The president again pledged himself to an administration guided so that there may be a reduction of taxation and harmony in our foreign relations that there may be peace and prosperity.

EARLY TELEGRAPH MAN IN TEXAS IS DEAD DALLAS TODAY

DALLAS, Sept. 24.—George Wheeler Foster, aged 70, pioneer telegraph and telephone man in Texas, died today in a hospital here after a long illness. He had been a resident of Texas 44 years and was the first editor of the Southwestern Telephone News.

DAILY COTTON LETTER

(H. and B. Beer Daily Cotton Letter, Received by A. S. McCollum, Bryan)
NEW ORLEANS, La., Sept. 24.—Failure of Liverpool to make a full response to yesterday's big advance in the American markets, better weather inland and liquidation in advance of the first October notice day in New York and New Orleans tomorrow, influenced values to a lower level today.

There was more rain over night in the South Atlantic States, but there was no rain of consequence in the Central and Eastern portions of the belt except at Brownsville, Texas. Summarizing developments of the past week, Washington reported "Temperature averaged mostly seasonable, with moderate to heavy rains quite general over the cotton States, with much interruption of picking and ginning in the eastern portion of the belt."

The impression prevails that the somewhat smaller crop forecast of yesterday, 12,594,000 bales exclusive of linters, will likely result in some improvement in the demand for raw cotton and cotton goods. Opinions remain divided as to the future course of the market. Some traders contend that the weight of the large crop has yet to be felt since only 1,406,000 bales were marketed to the close of last Friday, but other operators feel that the recent downward revision of crop ideas will revive trade and speculative buying and prevent any further decline of importance.

The educational committee, remarked on the educational programs to be presented and Dr. Black announced those in charge of programs during October.

Visitors present today were: With W. S. Barron, C. C. Ragan; with W. F. Davis, J. H. Evetts and J. D. Conway, both of the Southern Pacific Lines.

KLAN CANDIDATE FOR SENATOR LOST RACE NEW JERSEY

(By Associated Press)
NEWARK, N. J., Sept. 24.—United States Senator Walter Edge decisively defeated Hamilton Kean, National Committeeman, for the Republican nomination for United States Senator, in yesterday's primary. It was claimed that Kean was supported by followers of the Ku Klux Klan.

BRIG. GEN. SAWYER CLAIMED BY DEATH END COMES QUICKLY

MARION, Ohio, Sept. 24.—Doctor Charles Sawyer, personal physician to the late President Warren G. Harding, and for a time the personal physician of President Calvin Coolidge, will be buried Friday in Marion cemetery, not far from where the body of President Harding lies entombed, it was announced today. Sawyer died very suddenly of heart disease yesterday.

END CAME SUDDENLY
MARION, O., Sept. 24.—Brig. Gen. Charles E. Sawyer, close friend and physician to the late President Harding, died late Tuesday at White Oaks Farm, his sanitarium.

Dr. Carl W. Sawyer, his son, who was present with Mrs. Sawyer when his father died, gave heart disease as the cause of death. The elder Sawyer was 64 years old. Mrs. Warren G. Harding, widow of the late President, was in the house but not in the same room at the time. Sawyer had come home and complained that he was feeling badly. He was lying on a lounge when the end came suddenly. He threw up an arm before his face and slumped over on his side, while his son used every available form of first-aid treatment without success.

Brig. Gen. Sawyer was with the late President Harding throughout his term at the White House and was with him at his death in San Francisco. He was retained at the White House a short while by President Coolidge but later returned to Marion to give his attention to the sanitarium and the Harding Memorial Association, of which he was chief executive.

It was Gen. Sawyer who notified Mrs. Harding and other members of the party when the President took a turn for the worse and died at a San Francisco hotel on August 2, 1923. White Oak Farm has been the home of Mrs. Harding since her husband died a little more than a year ago.

LA MARQUE COTTON SENT A. M. COLLEGE STUDY PLANT GENETICS

GALVESTON, Sept. 24.—Bolls of cotton containing from six to eight locks of long and short staple cotton per boll were brought to Galveston yesterday by Miss Mary Dan George, daughter of P. Dan George, well-known horticulturist of La Marque. Samples of the cotton were sent to Texas A. and M. College to be used in the study of cotton genetics. Miss George exhibited the boll which contained eight locks and a limb containing a cross of eight-lock and five-lock bolls. Those having eight locks are of the long staple variety while the five-lock sort are of the short staple variety. Only a small quantity of this crop is under cultivation.

Mr. George produced 1,113 pounds of seed cotton on two lots of ground. One stalk was said to be six feet and two inches tall and contained from 300 to 400 bolls of cotton. Ordinary cotton contains from three to five locks per boll, so the LaMarque cotton is considered quite an achievement.

Hundreds of persons have been attracted to Mr. Dan George's little farm this year to get first-hand information about his experiments in agriculture; not only in cotton, but in truck production. Mr. Dan George is proving himself the Burbank of Texas. Grafting egg plant and tomatoes is one of his numerous achievements.

W. W. Chambers motored to Cameron today.

KLANSMEN AND KLANSWOMEN SALT OF THE EARTH—IMPERIAL WIZARD

Organization is Last Refuge of American Patriotism in Opinion of Hiram W. Evans of Atlanta, Ranking Executive in the Ku Klux Klan—Declares Future of Country Hangs in Balance.

(By Associated Press)
KANSAS CITY, Sept. 24.—The Ku Klux Klan was held up as the "last refuge of American patriotism worthy of the name" by Imperial Wizard Hiram Evans, in addressing the second Imperial Klonoconvocation of the order here today. "Klansmen and Klanswomen are verily the salt of the earth, upon whom depends future civilization", Evans declared. Evans said "the future of American white race hangs in the balance".

CARLOAD GALVANIZED WARE ARRIVES BRYAN --RECEIVED BY FAIR

It is quite an unusual, probably an unprecedented thing, for any local firm to receive a carload of galvanized ware—tubs and buckets. This speaks well for Bryan as a trading center and also for The Fair, which received this big shipment and has stored it away on the second floor of their place of business on Main Street. This shipment came from Newark, New Jersey, direct to the Fair, and was billed prepaid. It includes 2,700 tubs in four different sizes and 5,520 buckets in five different sizes. W. R. Thomas, proprietor of The Fair, made this purchase when on his recent buying trip to New York City. He paid cash for the carload of galvanized ware and it came prepaid which make an exceptionally low price permissible for the articles to the retail trade. Buying in such large quantities, and for cash, as Mr. Thomas does, and selling the mail-order house competition and in all probability these tubs and buckets, which are now on sale at phenomenally low prices, are going to be sold in Bryan for less than the public would have to pay at one of the big catalog houses. The freight alone on this carload of ware was over \$365, which gives one an idea of the outlay of money that is being spent by the management of The Fair to render service to its patrons and live up to the motto of: "Service-Quantity-Price."

MISS ROTEN HELD A MEETING TO PREPARE COMMUNITY FAIR

Tuesday, an all day meeting of the Woman's Department of the community fair to be held at Mudville, Friday, October 10th, was held at Steele's Store, at which time, Miss Laura Belle Roten, Brazos County home demonstration agent was present to instruct the women in their work. Miss Roten gave demonstrations in tailored pockets and buttonholes as the women are putting extra work on the sewing exhibits for the fair. While the day was a splendid success in point of attendance and also in work accomplished, so interested are the women of that section in learning the perfected arts of sewing, cooking, etc., they have urged Miss Roten to come for two more days of demonstration before the opening of the community fair, October 10th, and of course Miss Roten has promised to go, for the greatest good to the greatest number is a thought ever before this accomplished worker, and she is pleased to note the interest being thus taken by the women of that section of the county. Those in attendance at the meeting were: Mesdames Ross Banana, Frank Trenticost, J. M. Bolmanskie, J. M. Perrone, N. L. Salvato, J. J. Depuma, B. Corania, R. B. Hearne; and Misses Mary Bolmanskie, Palma Varisco, Mae Harris Johnson and Laura Belle Roten.

W. J. Coulter and M. G. Nall went to Calvert on business this afternoon.

Mr. and Mrs. J. L. Sample were among the visitors from the Cottonwood community in Bryan today.

HEAVIEST FIGHT ON THE MORROW

PRESENT INACTION IS BELIEVED TO PRECEDE BIG BATTLE ON THURSDAY

KIANGSU MASS FORCES

(By Associated Press)
SHANGHAI, Sept. 24.—While the guns of both the Chekiang and Kiangsu armies, west of here, remained silent today, the Lungwha headquarters of the Chekiang forces expected their opponents to make the heaviest drive of the war tonight and tomorrow on the front between Liuhue and Tsingpu. This prediction is based on information that the Kiangsu leaders have been massing every available man on this front.

REPORTS COMMEND COMMISSION SAYS JUDGE FERGUSON

County Judge H. O. Ferguson returned on the early morning train from Houston where he went Monday to attend the convention of engineers and everyone interested in the State, which was held there Monday at the Rice Hotel. The discussions followed the lines of general improvement of state highways and road conditions and to the end that favorable legislation might be secured on highway lines. Reports were received from various Chambers of Commerce and Commissioners' Courts over the State on the service rendered by the State Highway Department, which took over the State designated roads on January 1, 1924. Practically every report made, some 75 or 100 in all, commended the Highway Commission and the work it was doing, especially under the handicaps it labored under in the beginning.

FIVE THOUSAND MILES STATE ROADS BUILT UNDER FEDERAL AID

WASHINGTON, Sept. 24.—Five thousand miles of state roads have been built, or under construction, or have been approved for construction, in Texas, with the assistance of Federal funds. The actual figures up to July 31 were 4,924 miles. These roads, when completed, will have cost nearly \$72,000,000 and the part which the Federal government has expended or will expend on them is nearly \$32,000,000.

Over 450 Miles Finished.
Up to December 31, last, 2,731.5 miles of Federal aid highway had been constructed in Texas and from January 1 to July 31 of this year 457.6 miles of completed road were added to the system, making a total of 3,189.1 miles. At that time there were under construction 1,546.7 miles of additional road, and plans for building 238.6 miles had been approved by the Federal bureau of public roads.

John Kosarek of Riverside has just had a new Delco lighting system installed in his store and dance hall. The equipment was installed through the C. E. Griesser agency.

COLLEGE OFFICERS AND FACULTY MEET

(Special to Bryan Daily Eagle)

COLLEGE STATION, Sept. 24.—Advising of the prospects for the extension of the service of the A. and M. College, warning of the subtle and direct ways in which the enemies of progress in education are fighting for curtailment of expenditures and asking for congeniality and co-operation in their position in the College family, President W. B. Bizzell opened the first convocation of officers and faculty of the College in the Mess Hall annex Tuesday evening.

Following his own address to the faculty, President Bizzell presented Registrar Charles E. Friley, Dean Charles Puryear, Professor D. Scates, Coach D. X. Bible and Professor F. B. Clark. Mr. Friley gave the statistics on enrollment and

made comparisons in the enrollment of various schools with that of the past year, exhibiting a very pleasing increase in all departments. Dean Puryear gave interesting diversion in a report of his Old Mexico trip during the past summer in which he threw in many humorous details and incidents, ranging from an accurate description of the excessive ornateness of a Mexican officer's dress to the thrilling episode of narrowly escaping a bandit hold-up while riding in an automobile in the vicinity of Mexico City as sole masculine escort to three young American misses and a mistress. The thrill of this adventure was given in the accurate quotation from the columns of a Mexico City daily newspaper.

From a tour of Mexico, the attention of the audience was turned

to Europe under the descriptions and observations of Professor Scates who toured England, Belgium, Holland, Denmark, Germany, Switzerland, and France the past summer. His survey included agricultural conditions, customs in trade and commerce, social practices, national opinions and incidents of travel. Of national opinions he emphasized that relating to the foreign judgment of the fatuousness of the American prohibition law, embellishing his statements with incidental references to his entertainment by the president of the champagne growers of France, and visits to the wine grape growing centers.

Physical Development.
Mr. Bible told the teachers how his department of physical education was planning its work to balance their program of mental culture with

his system of physical development, advising them that while the intercollegiate athletics may be considered as the apex of the system basing it was the fundamental physical training to give the men a well rounded physical activity to enable them to develop in health and strength at the same time they advance their intellect.

Dr. Clark recommended the virtues of group insurance and his exposition of the merits of the plan was followed by the assurance of President Bizzell that a committee would be appointed to examine the matter carefully and that if favorable reaction was received from the employees assured that the board of directors would pay part of the expense of insuring the College of fiscal force.

HERBERT GRIFFIN IS GIVEN TWENTY-FIVE YEARS FOR MURDER

(By Associated Press)
FT. WORTH, Sept. 24.—Herbert Griffin, accused of killing Hugh Reilly, Jr., was convicted and given a 25-year sentence by the jury at Graham today. The trial lasted 10 days. Both were prominent West Texas ranchmen.

GOOD MEETING BRYAN ROTARY CLUB TODAY

Following the luncheon hour at the Green Parrot and the introduction of visitors, the singing of songs, led by S. Moylan Bird, the meeting of the Bryan Rotary Club today was turned over to W. E. Farmer as program leader. After a few words in commendation of scout work he introduced C. C. Ragan, scout executive for this district who urged the formation of two or three troops to be sponsored by the Rotary Club as the Lions have agreed to do, and the appointment of scoutmasters to look after this work, with preliminary training in a scoutmasters' school. Following his talk, President Wilson asked for volunteers and the following men agreed to undertake this work of service to the youth of the city: W. S. Barron, Todd R. White, J. L. Reese and C. S. Beckwith.

Three Points Stressed.
Then, after a few words of praise for the student loan fund and stating that the Western Public Service Company was endeavoring as far as possible to employ boys who were working their way through school, Program Leader Farmer called on County Attorney Oak McKenzie for a few remarks along this line. Rotarian McKenzie said that he had three things on his mind that he wanted to get out while he was permitted a place on the program. The first one he said was "regard to support of the Bryan high football team in its game with Rosebud tomorrow and throughout the season. He said that the boys played better when they knew that some business man was observing their play and their spirit and that he knew this to be a fact from his own experience with one of the boys.

The second thing he wished to stress, he said, was the student loan fund, and added that he had assisted a boy from his home section of the country through his last year of college; that this boy was now in a responsible position and wrote to him frequently, in each letter expressing his appreciation and gratitude for the loan that had made his success possible. "It is great to think," said Mr. McKenzie, "that some day that boy of today may be a great man and that I shall have been, at least in part, responsible for his success. Therein will I be repaid."

The third thing he mentioned was his first ideal of Rotary and that he thought the primary spirit to him was the fellowship of the assemblage and urged that matters be arranged so that the members would move about from table to table with congenial fellows and the same ones each meeting. He said that closer cultivation of members brought better understanding and friendship and that we should strive to that end that each one of us might know his fellowman better and thus better appreciate him.

The balance of the meeting hour was consumed in business matters, including the appointment of a business methods committee by President Wilson as follows: H. C. Fulgham, chairman; Kay Halsell, W. E. Farmer, Walter Coulter, Oscar Goolshee. Dr. Humbert, chairman of the educational committee, remarked on the educational programs to be presented and Dr. Black announced those in charge of programs during October.

Visitors present today were: With W. S. Barron, C. C. Ragan; with W. F. Davis, J. H. Evetts and J. D. Conway, both of the Southern Pacific Lines.

PROHIBITION TO THE PHILIPPINES

VOLSTEAD ACT BEING MADE TO APPLY TO UNORGANIZED TERRITORY

NEW INTERPRETATION

(By Associated Press)
MANILA, Sept. 24.—Instruction issued by the State Department at Washington ordering all foreign consuls to refuse to issue bills of health to vessels carrying liquor to the Philippine Islands for beverage purposes were received here today. This ruling of State Department was contrary to the interpretation placed on the Volstead act in official circles here where it was believed that the dry law of the United States did not apply to unorganized territory.

SERVICE IS SET UP BY COOLIDGE BEFORE DRUGGISTS MEETING

(By Associated Press)
WASHINGTON, Sept. 24.—Service and mutual consideration were set up today by President Calvin Coolidge as the guiding principles in the relation between government and business, in a talk to delegates to the convention here of the National Association of Retail Druggists. The president again pledged himself to an administration guided so that there may be a reduction of taxation and harmony in our foreign relations that there may be peace and prosperity.

EARLY TELEGRAPH MAN IN TEXAS IS DEAD DALLAS TODAY

DALLAS, Sept. 24.—George Wheeler Foster, aged 70, pioneer telegraph and telephone man in Texas, died today in a hospital here after a long illness. He had been a resident of Texas 44 years and was the first editor of the Southwestern Telephone News.

DAILY COTTON LETTER

(H. and B. Beer Daily Cotton Letter, Received by A. S. McCollum, Bryan.)
NEW ORLEANS, La., Sept. 24.—Failure of Liverpool to make a full response to yesterday's big advance in the American markets, better weather inland and liquidation in advance of the first October notice day in New York and New Orleans tomorrow, influenced values to a lower level today.

There was more rain over night in the South Atlantic States, but there was no rain of consequence in the Central and Eastern portions of the belt except at Brownsville, Texas. Summarizing developments of the past week, Washington reported "Temperature averaged mostly seasonable, with moderate to heavy rains quite general over the cotton States, with much interruption of picking and ginning in the eastern portion of the belt."

The impression prevails that the somewhat smaller crop forecast of yesterday, 12,590,000 bales exclusive of linters, will likely result in some improvement in the demand for raw cotton and cotton goods. Opinions remain divided as to the future course of the market. Some traders contend that the weight of the large crop has yet to be felt since only 1,406,000 bales were marketed to the close of last Friday, but other operators feel that the recent downward revision of crop ideas will revive trade and speculative buying and prevent any further decline of importance.

Hundreds of persons have been attracted to Mr. Dan George's little farm this year to get first-hand information about his experiments in agriculture; not only in cotton, but in truck production, Mr. Dan George is proving himself the Burbank of Texas. Grafting egg plant and tomatoes is one of his numerous achievements.

W. W. Chambers motored to Cameron today.

KLAN CANDIDATE FOR SENATOR LOST RACE NEW JERSEY

(By Associated Press)
NEWARK, New Jersey, Sept. 24.—United States Senator Walter Edge decisively defeated Hamilton Kean, National Committeeman, for the Republican nomination for United States Senator, in yesterday's primary. It was claimed that Kean was supported by followers of the Ku Klux Klan.

BRIG. GEN. SAWYER CLAIMED BY DEATH END COMES QUICKLY

MARION, Ohio, Sept. 24.—Doctor Charles Sawyer, personal physician to the late President Warren G. Harding, and for a time the personal physician of President Calvin Coolidge, will be buried Friday in Marion cemetery, not far from where the body of President Harding lies entombed, it was announced today. Sawyer died very suddenly of heart disease yesterday.

END CAME SUDDENLY

MARION, O., Sept. 24.—Brig. Gen. Charles E. Sawyer, close friend and physician to the late President Harding, died late Tuesday at White Oaks Farm, his sanitarium. Dr. Carl W. Sawyer, his son, who was present with Mrs. Sawyer when his father died, gave heart disease as the cause of death. The elder Sawyer was 64 years old.

Mrs. Warren G. Harding, widow of the late President, was in the house but not in the same room at the time. Sawyer had come home and complained that he was feeling badly. He was lying on a lounge when the end came suddenly. He threw up an arm before his face and slumped over on his side, while his son used every available form of first-aid treatment without success.

Brig. Gen. Sawyer was with the late President Harding throughout his term at the White House and was with him at his death in San Francisco. He was retained at the White House a short while by President Coolidge but later returned to Marion to give his attention to the sanitarium and the Harding Memorial Association, of which he was chief executive.

It was Gen. Sawyer who notified Mrs. Harding and other members of the party when the President took a turn for the worse and died at a San Francisco hotel on August 2, 1923. White Oak Farm has been the home of Mrs. Harding since her husband died a little more than a year ago.

LA MARQUE COTTON SENT A. M. COLLEGE STUDY PLANT GENETICS

GALVESTON, Sept. 24.—Bolls of cotton containing from six to eight locks of long and short staple cotton per boll were brought to Galveston yesterday by Miss Mary Dan George, daughter of P. Dan George, well-known horticulturist of La Marque. Samples of the cotton were sent to Texas A. and M. College to be used in the study of cotton genetics. Miss George exhibited the boll which contained eight locks and a limb containing a cross of eight-lock and five-lock bolls. Those having eight locks are of the long staple variety while the five-lock sort are of the short staple variety. Only a small quantity of this crop is under cultivation.

Mr. George produced 1,113 pounds of seed cotton on two lots of ground. One stalk was said to be six feet and two inches tall and contained from 300 to 400 bolls of cotton. Ordinary cotton contains from three to five locks per boll, so the LaMarque cotton is considered quite an achievement.

Hundreds of persons have been attracted to Mr. Dan George's little farm this year to get first-hand information about his experiments in agriculture; not only in cotton, but in truck production, Mr. Dan George is proving himself the Burbank of Texas. Grafting egg plant and tomatoes is one of his numerous achievements.

W. W. Chambers motored to Cameron today.

KLANSMEN AND KLANSWOMEN SALT OF THE EARTH—IMPERIAL WIZARD

Organization is Last Refuge of American Patriotism in Opinion of Hiram W. Evans of Atlanta, Ranking Executive in the Ku Klux Klan—Declares Future of Country Hangs in Balance.

(By Associated Press)

KANSAS CITY, Sept. 24.—The Ku Klux Klan was held up as the "last refuge of American patriotism worthy of the name" by Imperial Wizard Hiram Evans, in addressing the second Imperial Klonoconvocation of the order here today. "Klansmen and Klanswomen are verily the salt of the earth, upon whom depends future civilization," Evans declared. Evans said "the future of American white race hangs in the balance."

CARLOAD GALVANIZED WARE ARRIVES BRYAN --RECEIVED BY FAIR

It is quite an unusual, probably an unprecedented thing, for any local firm to receive a carload of galvanized ware—tubs and buckets. This speaks well for Bryan as a trading center and also for The Fair, which received this big shipment and has stored it away on the second floor of their place of business on Main Street. This shipment came from Newark, New Jersey, direct to the Fair, and was billed prepaid. It includes 2,700 tubs in four different sizes, and 5,520 buckets in five different sizes. W. R. Thomas, proprietor of The Fair, made this purchase when on his recent buying trip to New York City. He paid cash for the carload of galvanized ware and it came prepaid which make an exceptionally low price permissible for the articles to the retail trade. Buying in such large quantities, and for cash, as Mr. Thomas does, and selling for cash only, is one way of meeting the mail-order house competition and in all probability these tubs and buckets, which are now on sale at phenomenally low prices, are going to be sold in Bryan for less than the public would have to pay at one of the big catalog houses. The freight alone on this carload of ware was over \$365, which gives one an idea of the outlay of money that is being spent by the management of The Fair to render service to its patrons and live up to the motto of: "Service—Quality—Price."

MISS ROTEN HELD A MEETING TO PREPARE COMMUNITY FAIR

Tuesday, an all day meeting of the Woman's Department of the community fair to be held at Mudville, Friday, October 10th, was held at Steele's Store, at which time, Miss Laura Belle Roten, Brazos County home demonstration agent was present to instruct the women in their work. Miss Roten gave demonstrations in tailored pockets and buttonholes as the women are putting extra work on the sewing exhibits for the fair. While the day was a splendid success in point of attendance and also in work accomplished, so interested are the women of that section in learning the perfected arts of sewing, cooking, etc., they have urged Miss Roten to come for two more days of demonstration before the opening of the community fair, October 10th, and of course Miss Roten has promised to go, for the greatest good to the greatest number is a thought ever before this accomplished worker, and she is pleased to note the interest being thus taken by the women of that section of the county. Those in attendance at the meeting were: Mesdames Ross Banana, Frank Trenticost, J. M. Bolmanskie, J. M. Perrone, N. L. Salvato, J. J. Depuma, J. B. Corania, R. B. Hearne, and Misses Mary Bolmanskie, Palma Varisco, Mae Harris Johnson and Laura Belle Roten.

W. J. Coulter and M. G. Nall went to Calvert on business this afternoon.

Mr. and Mrs. J. L. Sample were among the visitors from the Cottonwood community in Bryan today.

KIANGSU MASS FORCES

(By Associated Press)

SHANGHAI, Sept. 24.—While the guns of both the Chekiang and Kiangsu armies, west of here, remained silent today, the Lungwha headquarters of the Chekiang forces expected their opponents to make the heaviest drive of the war tonight and tomorrow on the front between Liuhue and Tsingpu. This prediction is based on information that the Kiangsu leaders have been massing every available man on this front.

REPORTS COMMEND COMMISSION SAYS JUDGE FERGUSON

County Judge H. O. Ferguson returned on the early morning train from Houston where he went Monday to attend the convention of engineers and everyone interested in the State, which was held there Monday at the Rice Hotel. The discussions followed the lines of general improvement of state highways and road conditions and to the end that favorable legislation might be secured on highway lines. Reports were received from various Chambers of Commerce and Commissioners' Courts over the State on the service rendered by the State Highway Department, which took over the State designated roads on January 1, 1924. Practically every report made, some 75 or 100 in all, commended the Highway Commission and the work it was doing, especially under the handicaps it labored under in the beginning.

FIVE THOUSAND MILES STATE ROADS BUILT UNDER FEDERAL AID

WASHINGTON, Sept. 24.—Five thousand miles of state roads have been built, or under construction, or have been approved for construction, in Texas, with the assistance of Federal funds. The actual figures up to July 31 were 4,922.4 miles. These roads, when completed, will have cost nearly \$72,000,000 and the part which the Federal government has expended or will expend on them is nearly \$32,000,000.

Over 450 Miles Finished.
Up to December 31, last, 2,731.5 miles of Federal aid highway had been constructed in Texas and from January 1 to July 31 of this year 457.6 miles of completed road were added to the system, making a total of 3,189.1 miles. At that time there were under construction 1,546.7 miles of additional road, and plans for building 238.6 miles had been approved by the Federal bureau of public roads.

John Kosarek of Riverside has just had a new Delco lighting system installed for his store and dance hall. The equipment was installed through the C. E. Griesser agency.

COLLEGE OFFICERS AND FACULTY MEET

(Special to Bryan Daily Eagle)

COLLEGE STATION, Sept. 24.—Advising of the prospects for the extension of the service of the A. and M. College, warning of the subtle and direct ways in which the enemies of progress in education are fighting for curtailment of expenditures and asking for congeniality and co-operation in their position in the College family, President W. B. Bizzell opened the first convocation of officers and faculty of the College in the Mess Hall annex Tuesday evening.

Following his own address to the faculty, President Bizzell presented Registrar Charles E. Friley, Dean Charles Puryear, Professor D. Seates, Coach D. X. Bible and Professor F. B. Clark. Mr. Friley gave the statistics on enrollment and

made comparisons in the enrollment of various schools with that of the past year, exhibiting a very pleasing increase in all departments. Dean Puryear gave interesting diversion in a report of his Old Mexico trip during the past summer in which he threw in many humorous details and incidents, ranging from an accurate description of the excessive ornateness of a Mexican officer's dress to the thrilling episode of narrowly escaping a bandit hold-up while riding in an automobile in the vicinity of Mexico City as sole masculine escort to three young American misses and a mistress. The thrill of this adventure was given in the accurate quotation from the columns of a Mexico City daily newspaper.

From a tour of Mexico, the attention of the audience was turned

to Europe under the descriptions and observations of Professor Seates who toured England, Belgium, Holland, Denmark, Germany, Switzerland, and France the past summer. His survey included agricultural conditions, customs in trade and commerce, social practices, national opinions and incidents of travel. Of national opinions he emphasized that relating to the foreign judgment of the fatuousness of the American prohibition law, embellishing his statements with incidental references to his entertainment by the president of the champagne growers of France, and visits to the wine grape growing centers.

Physical Development.
Mr. Bible told the teachers how his department of physical education was planning its work to balance their program of mental culture with

his system of physical development, advising them that while the intercollegiate athletics may be considered as the apex of the system basing it was the fundamental physical training to give the men a well rounded physical activity to enable them to develop in health and strength at the same time they advance their intellect.

Dr. Clark recommended the virtues of group insurance and his exposition of the merits of the plan was followed by the assurance of President Bizzell that a committee would be appointed to examine the matter carefully and that if favorable reaction was received from the employees assured them that the board of directors would pay part of the expense of insuring the College official force.

A MAN'S WORD

We have heard instances of people to whom everything was perfectly—lendid or absolutely absurd, or supremely preposterous, or horribly awful, or scintillatingly sparkling, or diabolically dastard, or otherwise superlatively "something" in some wise. Suppose it was. Everything is not that way surely, and after all just what is the difference between "lovely" and "simply grand." One can use these adjectives until they become tiresome and almost nauseating to hearers—but the saddest result is that people lose faith in the one who employs these words continuously and consistently. If everything is heralded in this wise, then what in the world can we say of the things that are really worth a superlative expression? We'll say it—yes, but it will fall flat when we do. Let's refrain from exaggeration, let's not be too gushing, too inclined to the superlative lest our words be discounted when we would have others believe.

And the same may be applied to business life. Let's not quote our wares in a superlative manner every day in every ad and in every way. Let's just tell the plain, unadorned, simple fact about the things we have to sell and let the value of the goods stand for itself in the world's competition. If we praise it too high, then a great deal is going to be expected of it and it's apt to fall down in the sight of the purchaser. Let's follow the old adage of Benjamin who said, in effect: "I never say 'I know' something to be true—I say 'I think' it is true. It's so much easier to back down when wrong when I say 'think' than it would have been had I said 'know'."

Let's be simple without simplicity, plain but not coarse, and honest without—H. D. Cee.

THERE IS A DIFFERENCE

Years ago the chap who worked his way through college was considered sort of a seven days wonder. The fact that he shook down a furnace at night to pay for his room rent gave him in the eyes of the world a standing similar to that which a presidential candidate used to acquire by having been born in a log cabin. If in addition to his evening's performance at the furnace he waited on table at a student boarding house for his meals, was it admitted that some day this young man would get into the president's cabinet. That, however, was before the table-waiting and furnace-shaking became so popular among college students as these honest and lowly endeavors are today.

The point is that if any young man or woman considers a college education of sufficient value to be willing to put in anywhere from one to four hours a day at remunerative work to help pay college expenses, there isn't the least doubt in the world that such a student will appreciate his college work. For it is as true of education as of anything else in the world that we value most whatever has taken us some little effort to acquire.—Richardson Echo.

FLOWERS FOR LIVING

Come again with a special feature edition, Brenham Daily Banner-Press. Your Merchants and Farmers Edition is splendid. It is full of good, interesting and valuable data to both the farmer and the merchant, which includes about everybody in any section of this State, either directly or indirectly. You have 40 pages of good, readable news and well-balanced and well-supported with advertising from live business firms who realize not only the value of advertising for its own sake but the value of supporting the biggest booster that any city has—its home-town newspaper.

A MISSING PRINTER

And the furniture store proprietor is still looking for the printer who set up his ad "rags" instead of "rugs." No trace of his whereabouts has yet been received.—Bryan Eagle. Still that furniture dealer isn't in as bad as one who lives here of whom it is told that while trying to sell a bed room suite to an old maid, stressingly told her, "We stand behind all the beds we sell." She didn't buy and hasn't spoken to him since.—Mineral Wells Index.

President James H. Lowry of the board of regents of C. I. A. has called a meeting of the board for Saturday, September 27th, at Denton, for the purpose of selecting a successor to President F. M. Bralley. The action of the board will be awaited with interest throughout Texas as C. I. A. is one of the most important schools in the educational system of Texas.

"What we want here in Decatur is some of the energy our citizens exhibit during political contests directed to ward the unbuilding of the town and community," said Colonel Collins in the Decatur Messenger. What is true of Decatur is also true of most every other town in Texas. City 'tis, but 'tis true.

SCHOOL DAYS ARE HERE

It is to be regretted that we no longer hear the old school-bell ringing its summons in the morning to hundreds and hundreds, yes, even millions of children in this land, urging them on to classes that shall give them the foundation and the background for the training that will lead them to goals which even we cannot foretell but which we know will have made them better citizens and better able to carry on the progress and civilization of the world into the brotherhood of man. But, though the old-fashioned school bell tolls its message no more, there can be seen on the streets, hurrying and lingering groups of boys and girls on their way to school. It is to be regretted that there are a few who are not numbered among the groups. They have been called to the support of a family the head of which, in his day, was himself, or herself, denied the privilege of free schools and an education that would fit him to earn a competent livelihood; or by force of circumstances the child is forced to enter the marts of business and help support the family.

Some of those who are en route to school are being placed there by the father and mother who have practiced economy and saved throughout the years with that objective and are today footing the bill for benefit of the joy and pride of their lives. Others are doing odd bits of work in and about the vicinity of the schools in order to "make their own way" through high school, through prep school and through college, for they have the vision that is not to be denied.

School days are here and we are glad to welcome the boys who come from far-away places in the state, from distant states and nations to enroll their names on the registration blanks at the local high school, the Allen Military Academy, Villa Maria Convent, and the great A. and M. College.

Friday's edition of the Palestine Daily Herald contained 16 pages of live reading matter and advertisements in a fair edition boasting Palestine's Texas Fruit Palace. It is a splendid piece of advertising and one that any Palestine citizen can hand out without an apology. The management is to be congratulated on the big edition and much praise should be given the progressive Palestine merchants who made the edition possible. As a result of having issued this edition there will certainly be more people throughout Texas who will know of Palestine and her Texas Fruit Palace, which no one can deny will bring profit to both the town and her citizenship.

If motorists would only remember that paved streets are fine for driving but must not be converted into speedways, there would be fewer auto to trag dies. But most drivers seem to think paved streets are built to give them a speedway and the way they proceed to speed. But that is the wrong idea. The people pay the taxes for the paved streets and they are for the use of the public in a legitimate way and no one class of people have a right to use them at the jeopardy of others. Use common sense and travel at a reasonable rate on the paved streets. Human life must not be jeopardized and sacrificed on the altar of speeding.

Bryan is setting an admirable record with its building activities. More building activity is in progress at the present time than ever before in Bryan's history. Most of the building is new homes so that the ever increasing number of our splendid citizenry may not only be merely housed, but housed in the home which in itself is an inspiration for good citizenship.

Recently the Paris Morning News carried an 8-page advertisement for one of the big department stores of that city. Some ad, we say. In the words of County Agent C. L. Beason "What others can do we can do better." There is no argument but that such advertisements bring prosperity to the firm that inserts them and the paper in which they are inserted.

A spirit of co-operation and friendliness with a mutual understanding that the success of one is dependent upon the success of the other, between the farmer and the business man will bring greater prosperity to both town and country.

We are indebted to President R. B. Ewing for a pass to the Robertson county fair at Franklin on October 2, 3 and 4. Thanks, President Ewing. You can count on us being there. We are glad of an excuse to visit our neighboring county.

ANOTHER BUSINESS OPENS UP IN BRYAN

The Bryan Auto Paint Shop, Vastbinder and Hall proprietors, has opened up for business in Bryan during the past week in the Sebasts building, E. F. Parks' block, on North Bryan Street. An expert in the painting line has been secured from Houston and will assist the proprietors in turning out the work. A steam-operated machine is used for dressing the paint off of old cars to make them ready for the application of the new paint. Steam washing of bodies and engines is also to be a business with this firm. They plan to turn out only the very best work and of the highest class. They say they will repaint Ford cars on 24-hour service.

FOR WORKING PEOPLE

The best of workers got out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by

M. H. JAMES DRUG CO. BOTH STORES

NEW SEE-SAWS AND SWINGS PLACED AT EAST SIDE SCHOOL

The children of the East Side school are enjoying very greatly the new see-saws and swings that have been placed on the school grounds by the Parent-Teachers association. These pieces of playground equipment, said superintendent Madison Hall this morning, are best of the strongest and most durable material and should last for decades.

In view of the unprecedented enrollment which is 15 per cent more than ever before in the school annals of the city and which makes it necessary for the school authorities to refuse acceptance of students desiring to enter from outside the district, it has been advisable for the East Side school to observe the plan of group recesses as practiced in many schools over the country. The first and second grades and a part of the third, hold recess at one time and have the use of the playground apparatus without interference from other children. The fifth, sixth and seventh take another period for recess and the rest of the third and the fourth grade have still a different period, which makes it very convenient and pleasant for all concerned as children of about the same age may play together without hindrance from those older or younger. Teachers are out on the playgrounds with the pupils during the recesses, Mr. Hall continued.

IN THE LONG AGO

Taken from the files of the Galveston News, September 19, 1874, fifty years ago: "Bryan—A party of seven gentlemen have just returned from a three days' hunt on the Navasota river, of which Charles Davis was the leader. They report fifty-seven deer killed, besides a large quantity of small game."

ROUTINE MATTERS DISCUSSED BY THE BOARD OF DIRECTORS

In the absence of President Jno. M. Lawrence, Wilson Bradley, first vice president, presided at the regular meeting of the Board of Directors of the Bryan and Brazos County Chamber of Commerce this morning at 10 o'clock at the commercial rooms. County Agent C. L. Beason acted as secretary as S. E. Eberstadt is visiting his mother and other relatives at his old home at Jefferson, Texas. Only routine matters and things of interest to the future growth and prosperity of Bryan were discussed.

Those present were: J. D. Martin, Eugene Edge, M. L. Parker, J. N. Dulaney, T. K. Lawrence, Tyler Haswell, Mrs. Lee J. Rountree, J. E. Covey, J. O. Morgan, D. L. Wilson, J. Bryan Miller, and County Agent C. L. Beason.

MRS. ROUNTREE TO BE COUNTY CHAIRMAN NATIONAL CAMPAIGN

"As chairman for Texas of the Finance Committee of the Democratic National Campaign, I am pleased to announce that Mrs. Lee J. Rountree of your county has agreed to serve as chairman for your county in assisting me in raising funds to help pay the expenses of the Democratic National Campaign. Mrs. Rountree will appoint an assistant chairman in every section of the county, and we trust that full co-operation will be given her and them." The above is the text of a letter received from W. L. Clayton, director of Finance for Texas, for the Democratic National Committee.

Mrs. Rountree states that she has taken the matter of her precinct chairman under advisement and is carefully considering different people for the place in order to get the one who might have the best qualifications to get results in their several communities. These appointments will be given out for publication in a few days. She added that further publicity on the drive and the details of the same would be given publicly as soon as they had been satisfactorily worked out. Brazos county's quota is \$1,500 and therefore State has been asked to raise \$250,000.

SEMI-WEEKLY FARM INTERESTED BRAZOS ENTRY IN CONTEST

"I read in the papers that you have a man down your way who looks like one of the likely winners of the \$1,000 grand prize in the Dallas News Cotton Contest. Please arrange to have some photographs made of Philip Noto of Steele's Store, who the paper says, has already picked five bales of cotton from his five acres. Get him standing in his field or his bales, or anything you like for that matter. We want the pictures for our Sunday News' page and for the Farm News, as well.

"Take several shots at Mr. Noto with your kodak; pose him at the gin or at his home, but show the cotton bales or the field or both in one or both of the pictures. We need this right away. Can I count on you? You know I can't be every place at once, and I am busy travelling all over Texas, and would have found it convenient to do so. Help me out in this matter and we will greatly appreciate it, and it will give your county some good publicity," was the text of a letter received today by County Agent C. L. Beason from Victor H. Schoffelmayer, of Dallas, cotton contest editor of the Dallas News. Brazos county citizens should feel proud of the record Mr. Noto has made and whether he wins the prize or not he has rendered splendid service to himself and his country by putting them on the map.

EYES OF OIL WORLD TURN TO BRAZOS COUNTY OPERATIONS

HISTORY OF OPERATIONS IN COLLEGE APPOINTMENT PRECINCT CHAIRMAN -WELLBORN SECTION--DRILLING AGAIN BEEN MADE BY MRS. LEE J. ROUNTREE

"The most important test that is to occupy the attention of the oil fraternity of Central Texas is to start immediately in Brazos county, according to John Vick, one of the lucky men in the Callahan well and holdings near Abilene, Texas, and who furnished the Eagle reporter the data for the following story. The local activity is in the section of country between College Station and Wellborn on each side of the H. and T. C. Railroad. There is quite a bit of interesting history connected with this locality and for the past twelve years has been considered by those in a position to know as the choicest bit of wildcat territory undeveloped.

"WIND" FROM THE WELL

In 1911 the Bryan Gas and Oil Company was organized and they drilled one well on the Kaczer place on the Brazos river. This test resulted in a dry hole with nothing favorable. They had some money left and were open to select another location. This was before days of the oil geology and locations were caused to be made by various circumstances. At this time a number of old residents of the College-Wellborn community confirmed the fact that years before a well had been dug on then what was known as the Putz farm, two and one-half miles south of College and that "wind" had come out of it as they considered it then, and finally some one struck a match to it which resulted in quite an explosion and caused quite a bit of local interest then and finally no further interest was taken in it. The well proved no good for water and was filled up.

Methods Were Primitive.

After the Bryan Gas and Oil Company had sifted all the claims for favorable locations that were presented from all localities, dreams and fortune tellers not excepted, it was decided to make their next test on the Putz farm. They drilled there and after encountering two strata of gas went into an oil sand. That was before the days of cutting off water by cement and they used a canvas packer and against a heavy gas pressure the water came in and they lost the well. They tried every known method at that time but could not cut the water off. By this time they were out of money and they decided to give a barbecue and a demonstration and raise more funds. This they did with plenty of refreshments and one of their demonstrations was to make the coffee with the gas as it came through the water in the casing. The funds were raised with enthusiasm and they moved about 600 feet northeast and drilled another well. They had the same gas and hit the oil at the same elevation and after numbers of trials with the same methods as in Well No. 1 the water broke in the walls would not stand. They poured fifty sacks of cement into the well and let it set, then tried to drill in for a casing, but this did no good. They were out of funds and unable to raise more for another well and it was abandoned.

Geologists Together.

Since that time those in control have made several efforts to block this acreage through various sources but to no avail. A. A. Snell, the contractor, and Joe Hathaway, the driller, both are firm in their conviction that the reason was the lack of experience for in those days they did not know about coring a head and cementing to cut off the water.

Since that time geologists have carefully worked out this locality and find the structural formations, very pronounced. The big fault on the West is very pronounced at Minter Springs, J. H. Dowling's pasture, J. J. Jones' pasture, and at Leonard school house as it goes through this county.

That this structure is properly sealed is not only evidenced by surface formations but by the fact that "old well" which is now a water well is still making live oil and gas after twelve years, and the water pressure has not been able to kill it. The fact that in both No. 1 and No. 2 well the oil was hit at the same horizon shows that it is structural formation and not a crevis. The fact that the showing when the well was being drilled and the live oil coming from the well now is evidence that oil is sealed into the structure or there would be none there.

Local Interest Rife.

This structure has already been checked by a number of the big company geologists and an appointment has been made by a recognized geologist of the major companies to work this structure out and make a report next week. Henry Willard, of Abilene, spent quite a bit of time on this structure and made the statement that "I have as much confidence in this structure producing as I did in my well in Callahan county before it came in."

The machinery of the Dansiger Oil and Refining Company well on the Amon Williams Ranch is to be moved on the location and H. L. Lewis, the field manager, says that this proposition will be handled in the same method as the Williams well, and expects a more enthusiastic co-operation of the major companies due to the favorable evidence and favorable geology. A majority of the major companies purchased holdings in the Williams well and some of the majors have spoken for holdings before this proposition was in definite shape. There is also going to be a great deal of local interest

taken in this one. One set of men have already made arrangements for \$5,000 worth of holdings.

Holden In Charge.

There is going to be no stock for sale, every interest will be straight assignments of 88 producers' leases. The drilling of this well will be in charge of L. L. Holden. Mr. Holden enjoys the distinction of having been sent by the Oil Well Supply Company of Roumania, Russia and Siberia to introduce American methods of drilling. Their system then required two and three years to drill a well that he would drill in thirty days with a rotary drill. M. O. Dansiger says that he considers that Mr. Holden is one of the most capable men in the business and feels perfectly satisfied when he has charge of any wild-cat well he is drilling.

Roland Herbert is going to be night driller and is a man of some 20 years' experience in the oil business and is considered by the oil fraternity as one of the best in the business. He and Mr. Holden have long worked together and understand each other's methods. Mr. Holden and Mr. Herbert are both interested in the company and are enthusiastic over the prospects and are firmly convinced that they can bring that oil showing to the top and be wonderfully repaid for their labors. The management says that there need be no mysteries connected with this well as the acreage has been blocked solid and feel a gratitude to the land owners in their co-operation.

Most Important Test.

The Constable well cost about \$9,500 per acre to test and the Williams well about \$6,500 per acre to test. The lack of co-operation of land owners is usually the cause of lack of information to the public. All communities should follow the example of the College-Wellborn community and hold their land together for actual developments and not let the speculators destroy their chances and Brazos county will be put on the map. This is by far the most important test that Brazos county has had and is going to be carefully followed by the oil fraternity, as well as the local enthusiast.

TABOR PLANNING FOR BIG COMMUNITY FAIR SEPTEMBER 28

Prof. and Mrs. W. G. Colson and Mrs. Will Premal of Tabor were in Bryan today finishing up the final arrangements for the Tabor Community Fair, for Friday, September 28. The Tabor people have made great preparations for the fair. Booths have been erected where the best products of cotton, corn, hay, oats, alfalfa, etc., from the farm will be on exhibit. Also the home has not been forgotten. It too, will be represented by the housewife with her products of cakes, bread, preserves, sewing, and fancy work. In fact the best produced in the Tabor community will be on exhibit. Besides the exhibits other attractions have been planned. A big basket dinner, baseball game, radio station, baby show, and other things.

TWENTY INDICTMENTS RETURNED BY GRAND JURY FOR BRAZOS

"We, the grand jurors duly empanelled at this the September term, A. D. 1924, of the District Court for Brazos county, hereby respectfully submit the following final report: We have been in session for the past five days, and have carefully and painstakingly investigated all violations of the law brought to our attention, or known to any member of our grand jury. During the course of our deliberations, we have examined into about twenty-five cases and return herewith twenty felony indictments. The bailiffs appointed by this body have been zealous in the performance of their duties, and the witnesses summoned have, in most cases, responded promptly. We have no complaints to make of any conditions in regard to county buildings of property. We find general conditions over Brazos county in good condition, as far as law observance is concerned."

The above is the text of the grand jury report made to the District Court, Judge W. C. Davis on the bench. The grand jury reported about 4 o'clock Friday afternoon, the above report having been signed by I. B. Todd, foreman of the grand jury. The several indictments are not available for publication at this time as it might cause some suspect to escape and evade the law and justice.

J. B. Lowe of Teague is here for a visit to his daughter, Mrs. T. A. Adams and family.

In the tabulated box accompanying this article will be noted the precincts of the county, together with their full vote cast in the second Democratic Primary, the quota that is to be raised and the precinct Chairman appointed by Mrs. Lee J. Rountree, county chairman. Mrs. Rountree has been named by W. L. Clayton of Houston, Texas Director, as Chairman for Brazos County in the Democratic National Campaign, Finance Department, to raise funds for the election of the Democratic Presidential ticket, Davis and Bryan. This work applies only to the national campaign and does not deal with the state or local situation. Mrs. Rountree has appointed these precinct chairmen after considerable thought and deliberation in order to secure the best ones to fill the places in the various and several precincts. The quotas allotted to each of the precincts has been figured from their votes cast in the last primary to make it fair and just for all. Texas' quota is \$250,000; Brazos county's is \$1500. Let's put this drive over the top, is her attitude on the matter and she asks the hearty cooperation of everyone and that every voter give one dollar at least, which will be given out from time to time, she added. Checks can be mailed or donations left with Mrs. Lee J. Rountree or given to any of the local chairmen.

PRECINCT QUOTAS AND CHAIRMEN, DEMOCRATIC NATIONAL CAMPAIGN, FINANCE DEPARTMENT

No.	Name Precinct	Votes Cast in Primary	Quota	Precinct Chairman

OPENING OF FORTY-NINTH ANNUAL SESSION A. & M. COLLEGE TODAY

Largest Enrollment for First Day of New Year in History of Institution Recorded—President Bizzell Welcomes Students and Harry H. Rogers, District Governor of Rotarians Makes Address.

(Special to the Eagle)

COLLEGE STATION, Sept. 19.—President W. B. Bizzell officially declared the opening of the forty-ninth annual session of the A. and M. College this morning, after he had greeted and given fatherly advice to 2100 students, the largest enrollment for the first day of a new year in the history of the College and following a fervent and heartily received address by Harry H. Rogers, of San Antonio, district governor of Rotarians.

BIZZELL GREET'S STUDENTS

President Bizzell acknowledged the task of the College in the acceptance of the student body as that of making collegians intelligent, moral and social minded human beings and expressed the hope that the A. and M. College could do that for more of the entrants this year than in any previous session. However, he gave the warning that there were those who would unfit themselves for such development by failure to adopt themselves properly to their new relationships and frankly pointed out how men had failed in past sessions as clear warning to the new ones.

Rogers in Address.

Mr. Rogers gave in five parts his formula for meeting the problems of the world. Success, he said, was dependent upon the establishment of proper relationships in our life. The first in importance of these he said was with God, and next in order of importance, country and mankind. To do this man must have industry, education, honesty, co-operation and optimism, the combination of which would make of each man a good citizen of the country. He emphasized the fundamental Christian elements in our government, declaring that in prayer Washington found success in giving us political liberty, in prayer inspiration was gained to make the constitution which has guided the democracy of the United States, through prayer our legislatures and our courts have been enabled to direct our government, and even the use of our money betrays our recognition of divine religion. He warned students that without an education they had only one chance in 150,000 trials to succeed financially while with a collegiate training they had 800 chances in the same number of trials. In co-operation with their fellowmen he saw the only opportunity to do things worthwhile, explaining that no single mind and no individual pile of wealth was able to do the big things of our country in the great state to which it has developed. The fifth necessity to establish the proper relationship in life, he said, was a spirit of optimism, which could see that the world was growing better.

In the conclusion of the program President Bizzell introduced the denominational pastors who each in turn urged close allegiance to their church affiliations and active participation in religious meetings. Among the group was the Presbyterian pastor who is beginning his work at the College this year. Reverend Fred Hancock, in America on leave of absence after 16 years' of missionary work in China will take up the work done by W. H. Matthews before his retirement to direct the Y. M. C. A. as secretary.

On the front rows in the chapel this morning were a large group of Bryan and College Rotarians.

NEGRO KILLED FRIDAY NIGHT IN BURLESON--NEGRO SHOT MUDVILLE

The body of Ed Campbell, negro, was shipped by the Peoples' Undertaking Company, colored, today to Dallas, his former home for burial. He was shot last Friday night by his wife, at their home on the Parker Estate plantation, near Parker's Upper Store, following an altercation. The weapon used was a shotgun. The above information was furnished by the local Undertaking establishment which understands that the woman had been arrested by Burleson county officials and has been released on bond.

Beulah Reed, negress, was arrested Saturday morning and brought in to Bryan from Mudville charged with shooting a negro with a shotgun, in a quarrel. She paid a fine and was released this morning. The charge of shot is said to have struck the negro in the shoulders from the rear as he ran.

GENEVIEVE BARRON INJURED ON FRIDAY

Bess Brown and Genevieve Barron, the latter the daughter of Mr. and Mrs. W. S. Barron, were riding their bicycles down West 26th street on Friday afternoon. A passing car, driven by Mack Mize, collided with the girls and their bicycles, throwing them off their machines. The little Brown girl was only slightly bruised but the Barron child was knocked unconscious and had to have medical attention. While her injuries are said to be not serious, still they are painful.

BRYAN BOY ENTERS PRINCETON SEMINARY

Whitman H. Fuller, son of Mr. and Mrs. F. D. Fuller left this noon for Princeton, N. J., where he will enter Princeton Theological Seminary and the graduate school of Princeton University. Mr. Fuller was graduated from Austin College in 1923 and during the past year has been field worker in Sunday school and Christian Endeavor extension for the Brazos Presbytery. En route to Princeton, Mr. Fuller will visit his sister, Mrs. L. L. Ruggles and family at Chicago, Illinois, and his brother, Allan C. Fuller at Buffalo, New York.

Henry P. Wilson, Federal student in placement training on Dr. R. B. Ehlinger's farm near the Country Club left Saturday morning for the U. S. Hospital at Muskogee, Okla.

BRYAN WEEKLY EAGLE

Entered at the postoffice at Bryan, Texas, April 22, 1912, as second class matter under act of congress March 3, 1879.

A MAN'S WORD

We have heard instances of people to whom everything was perfectly—lendid or absolutely absurd, or supremely preposterous, or horribly awful, or scintillatingly sparkling, or diabolically dastard, or otherwise superlatively "something" in some wise. Suppose it was. Everything is not that way surely, and after all just what is the difference between "lovely" and "simply grand." One can use these adjectives until they become tiresome and almost nauseating to hearers—but the saddest result is that people lose faith in the one who employs these words continuously and consistently. If everything is heralded in this wise, then what in the world can we say of the things that are really worth a superlative expression? We'll say it—yes, but it will fall flat when we do. Let's refrain from exaggeration, let's not be too gushing, too inclined to the superlative lest our words be discounted when we would have others believe.

And the same may be applied to business life. Let's not quote our wares in a superlative manner every day in every ad and in every way. Let's just tell the plain, ungarbled, simple fact about the things we have to sell and let the value of the goods stand for itself in the world's competition. If we praise it too high, then a great deal is going to be expected of it and it's apt to fall down in the sight of the purchaser. Let's follow the old adage of Benjamin who said, in effect: "I never say 'I know' something to be true—I say 'I think' it is true. It's so much easier to back down when wrong when I say 'think' than it would have been had I said 'know'."

Let's be simple without simpleness, plain but not coarse, and honest without—H. D. Cee.

THERE IS A DIFFERENCE

Years ago the chap who worked his way through college was considered sort of a seven days wonder. The fact that he shook down a furnace at night to pay for his room rent gave him in the eyes of the world a standing similar to that which a presidential candidate used to acquire by having been born in a log cabin. If in addition to his evening's performance at the furnace he waited on table at a student boarding house for his meals, was it admitted that some day this young man would get into the president's cabinet. That however, was before the table-waiting and furnace-shaking became a popular among college students as these honest and lowly endeavors are today.

The point is that if any young man or woman considers a college education of sufficient value to be willing to put in anywhere from one to four hours a day at remunerative work to help pay college expenses, there isn't the least doubt in the world that such a student will appreciate his college work. For it is as true of education as of anything else in the world that we value most whatever has taken us some little effort to acquire.—Richardson Echo.

FLOWERS FOR LIVING

Come again with a special feature edition, Brenham Daily Banner-Press. Your Merchants and Farmers Edition is splendid. It is full of good, interesting and valuable data to both the farmer and the merchant, which includes about everybody in any section of this State, either directly or indirectly. You have 40 pages of good, readable news and well-balanced and well-supported with advertising from live business firms who realize not only the value of advertising for their own sake but the value of supporting the biggest booster that any city has—its home-town newspaper.

A MISSING PRINTER

And the furniture store proprietor is still looking for the printer who set up his ad "rags" instead of "rugs." No trace of his whereabouts has yet been received.—Bryan Eagle.

Still that furniture dealer isn't in as bad as one who lives here of whom it is told that while trying to sell a bed room suite to an old maid, stressfully told her, "We stand behind all the beds we sell." She didn't buy and hasn't spoken to him since.—Mineral Wells Index.

President James H. Lowry of the board of regents of C. I. A. has called a meeting of the board for Saturday, September 27th, at Denton, for the purpose of selecting a successor to President F. M. Bralley. The action of the board will be awaited with interest throughout Texas as C. I. A. is one of the most important schools in the educational system of Texas.

SCHOOL DAYS ARE HERE

It is to be regretted that we no longer hear the old school-bell ringing its summons in the morning to hundreds and hundreds, yes, even millions of children in this land, urging them on to classes that shall give them the foundation and the background for the training that will lead them to goals which even we cannot foresee but which the progress will have made them better citizens and better able to carry on the progress and civilization of the world into the brotherhood of man. But, though the old-fashioned school bell tolls its message no more, there can be seen on the streets hurrying and lingering groups of boys and girls on their way to school. It is to be regretted that there are a few who are not numbered among the groups. They have been called to the support of a family the head of which, in his day, was himself, or herself, denied the privilege of free schools and an education that would fit him to earn a competent livelihood; or by force of circumstances the child is forced to enter the marts of business and help support the family.

Some of those who are en route to school are being placed there by the father and mother who have practiced economy and saved throughout the years with that objective and are today footing the bill for benefit of the joy and pride of their lives. Others are doing odd bits of work in and about the vicinity of the schools in order to "make their own way" through high school, through prep school and through college, for they have the vision that is not to be denied.

School days are here and we are glad to welcome the boys who come from far-away places in the state, from distant states and nations to enroll their names on the registration blanks at the local high school, the Allen Military Academy, Villa Maria Convent, and the great A. and M. College.

Friday's edition of the Palestine Daily Herald contained 16 pages of live reading matter and advertisements in a fair edition boosting Palestine's Texas Fruit Palace. It is a splendid piece of advertising and one that any Palestine citizen can hand out without an apology. The management is to be congratulated on the big edition and much praise should be given the progressive Palestine merchants who made the edition possible. As a result of having issued this edition there will certainly be more people throughout Texas who will know of Palestine and her Texas Fruit Palace, which no one can deny will bring profit to both the town and her citizenship.

If motorists would only remember that paved streets are fine for driving but must not be converted into speedways, there would be fewer auto-trag-dies. But most drivers seem to think paved streets are built to give them a speedway and the way they proceed to speed. But that is the wrong idea. The people pay the taxes for the paved streets and they are for the use of the public in a legitimate way and no one class of people have a right to use them at the jeopardy of others. Use common sense and travel at a reasonable rate on the paved streets. Human life must not be jeopardized and sacrificed on the altar of speeding.

Bryan is setting an admirable record with its building activities. More building activity is in progress at the present time than ever before in Bryan's history. Most of the building is new homes so that the ever increasing number of our splendid citizenry may not only be merely housed, but housed in the home which in itself is an inspiration for good citizenship.

Recently the Paris Morning News carried an 8-page advertisement for one of the big department stores of that city. Some ad, we say. In the words of County Agent C. L. Beason "What others can do we can do better." There is no argument but that such advertisements bring prosperity to the firm that inserts them and the paper in which they are inserted.

A spirit of co-operation and friendliness with a mutual understanding that the success of one is dependent upon the success of the other, between the farmer and the business man will bring greater prosperity to both town and country.

We are indebted to President R. B. Ewing for a pass to the Robertson county fair at Franklin on October 2, 3 and 4. Thanks, President Ewing. You can count on us being there. We are glad of an excuse to visit our neighboring county.

ANOTHER BUSINESS OPENS UP IN BRYAN

The Bryan Auto Paint Shop, Vashinder and Hall proprietors, has opened up for business in Bryan during the past week in the Sebasta building, E. F. Parks' block, on North Bryan Street. An expert in the painting line has been secured from Houston and will assist the proprietors in turning out the work. A steam-operated machine is used for dressing the paint off of old cars to make them ready for the application of the new paint. Steam washing of bodies and engines is also to be a business with this firm. They plan to turn out only the very best work and of the highest class. They say they will repaint Ford cars on 24-hour service.

FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Lichine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by M. H. JAMES DRUG CO.

BOTH STORES

NEW SEE-SAWS AND SWINGS PLACED AT EAST SIDE SCHOOL

The children of the East Side school are enjoying very greatly the new see-saws and swings that have been placed on the school grounds by the Parent-Teachers association. These pieces of playground equipment, said superintendent Madison Hall, this morning, are best of the strongest and most durable material and should last for decades.

In view of the unprecedented enrollment which is 15 per cent more than ever before in the school annals of the city and which makes it necessary for the school authorities to refuse acceptance of students desiring to enter from outside the district, it has been advisable for the East Side school to observe the plan of group recesses as practiced in many schools over the country. The first and second grades and a part of the third, hold recess at one time and have the use of the playground apparatus without interference from other children. The fifth, sixth and seventh take another period for recess and the rest of the third and the fourth grade have still a different period, which makes it very convenient and pleasant for all concerned as children of about the same age may play together without hindrance from those older or younger. Teachers are out on the playgrounds with the pupils during the recesses, Mr. Hall continued.

IN THE LONG AGO

Taken from the files of the Galveston News, September 19, 1874, fifty years ago: "Bryan—A party of seven gentlemen have just returned from a three days' hunt on the Navasota river, of which Charles Davis was the leader. They report fifty-seven deer killed, besides a large quantity of small game."

ROUTINE MATTERS DISCUSSED BY THE BOARD OF DIRECTORS

In the absence of President Jno. M. Lawrence, Wilson Bradley, first vice president, presided at the regular meeting of the Board of Directors of the Bryan and Brazos County Chamber of Commerce this morning at 10 o'clock at the commercial rooms. County Agent C. L. Beason acted as secretary as S. E. Eberstadt is visiting his mother and other relatives at his old home at Jefferson, Texas. Only routine matters and things of interest to the future growth and prosperity of Bryan were discussed.

Those present were: J. D. Martin, Eugene Edge, M. L. Parker, J. N. Dulaney, T. K. Lawrence, Tyler Haswell, Mrs. Lee J. Rountree, J. E. Covey, J. O. Morgan, D. L. Wilson, C. Bryan Miller, and County Agent C. L. Beason.

MRS. ROUNTREE TO BE COUNTY CHAIRMAN NATIONAL CAMPAIGN

"As chairman for Texas of the Finance Committee of the Democratic National Campaign, I am pleased to announce that Mrs. Lee J. Rountree of your county has agreed to serve as chairman for your county in assisting me in raising funds to help pay the expenses of the Democratic National Campaign. Mrs. Rountree will appoint an assistant chairman in every section of the county, and we trust that full co-operation will be given her and them." The above is the text of a letter received from W. L. Clayton, director of Finance for Texas, for the Democratic National Campaign.

Mrs. Rountree states that she has taken the matter of her precinct chairmen under advisement and is carefully considering different people for the place in order to get the one who might have the best qualifications to get results in their several communities. These appointments will be given out for publication in a few days. She added that further publicity on the drive and the details of the same would be given publicly as soon as they had been satisfactorily worked out. Brazos county's quota is \$1,500 and the entire State has been asked to raise \$250,000.

SEMI-WEEKLY FARM INTERESTED BRAZOS ENTRY IN CONTEST

"I read in the papers that you have a man down your way who looks like one of the likely winners of the \$1,000 grand prize in the Dallas News Cotton Contest. Please arrange to have some photograph made of Philip Noto of Steele's Store, who, the paper says, has already picked five bales of cotton from his five acres. Get him standing in his field or his bales, or anything you like for that matter. We want the pictures for our Sunday News' page and for the Farm News, as well."

"Take several shots at Mr. Noto with your kodak; pose him at the gin or at his home, but show the cotton bales or the field or both in one or both of the pictures. We need this right away. Can I count on you? You know I can't be every place at once, and I am busy travelling all over Texas, and would have been down your way if I could have found it convenient to do so. Help me out in this matter and I will give your county some good publicity." was the text of a letter received today by County Agent C. L. Beason from Victor H. Schofflemeyer, of Dallas, cotton contest editor of the Dallas News. Brazos county citizens should feel proud of the record Mr. Noto has made and whether he wins the prize or not he has rendered splendid service to himself and his county by putting them on the map.

EYES OF OIL WORLD TURN TO BRAZOS COUNTY OPERATIONS

HISTORY OF OPERATIONS IN COLLEGE WELLBORN SECTION—DRILLING AGAIN BEEN MADE BY MRS. LEE J. ROUNTREE

"The most important test that is to occupy the attention of the oil fraternity of Central Texas is to start immediately in Brazos county, according to John Vick, one of the lucky men in the Callahan well and holdings near Abilene, Texas, and who furnished the Eagle reporter the data for the following story. The local activity is in the section of country between College Station and Wellborn on each side of the H. and T. C. Railroad. There is quite a bit of interesting history connected with this locality and for the past twelve years has been considered by those in a position to know as the choicest bit of wildcat territory undeveloped.

"WIND" FROM THE WELL

In 1911 the Bryan Gas and Oil Company was organized and they drilled one well on the Kacer place on the Brazos river. This test resulted in a dry hole with nothing favorable. They had some money left and were open to select another location. This was before days of the oil geology and locations were caused to be made by various circumstances. At this time a number of old residents of the College-Wellborn community confirmed the fact that years before a well had been dug on then what was known as the Putz farm, two and one-half miles south of College and that "wind" had come out of it as they considered it then, and finally some one struck a match to it which resulted in quite an explosion and caused quite a bit of local interest then and finally no further interest was taken in it. The well proved no good for water and was filled up.

Methods Were Primitive.

After the Bryan Gas and Oil Company had sifted all the claims for favorable locations that were presented from all localities, dreams and fortune tellers not excepted, it was decided to make their next test on the Putz farm. They drilled there and after encountering two strata of gas went into an oil sand. That was before the days of cutting off water by cement and they used a canvas packer and against a heavy gas pressure the water came in and they lost the well. They tried every known method at that time but could not cut the water off. By this time they were out of money and they decided to give a barbecue and a demonstration and raise more funds. This they did with plenty of refreshments and one of their demonstrations was to make the coffee with the gas as it came through the water in the casing. The funds were raised with enthusiasm and they moved about 600 feet northeast and drilled another well. They had the same gas and hit the oil at the same elevation and after numbers of trials with the same methods as in Well No. 1 the water broke in the well and they would not stand. They poured fifty sacks of cement into the well and let it set, then tried to drill in for a casing, but this did no good. They were out of funds and unable to raise more for another well and it was abandoned.

Most Important Test.

The Conatello well cost about \$9.50 per acre to test and the Williams well about \$6.50 per acre to test. The lack of co-operation of land owners is usually the cause of lack of information to the public. All communities should follow the example of the College-Wellborn community and hold their land together for actual developments and not let the speculators destroy their chances and Brazos county will be put on the map. This is by far the most important test that Brazos county has had and is going to be carefully followed by the oil fraternity, as well as the local enthusiasts.

Geologists Together.

Since that time those in control have made several efforts to block this acreage through various sources but to no avail. A. A. Snell, the contractor, and Joe Hathaway, the driller, both are firm in their conviction that the reason was the lack of experience for in those days they did not know about coring a head and cementing to cut off the water.

Since that time geologists have carefully worked out this locality and find the structural formations very pronounced. The big fault on the West is very pronounced at Minter Springs, J. H. Dowling's pasture, J. J. Jones' pasture, and at Leonard school house as it goes through this county.

That this structure is properly sealed is not only evidenced by surface formations but by the fact that "the old well which is now a water well is still making live oil and gas after twelve years, and the water pressure has not been able to kill it. The fact that in both No. 1 and No. 2 well the oil was hit at the same horizon shows that it is structural formation and not a crevice. The fact that the showing when the well was being drilled and the live oil coming from the well now is evidence that oil is sealed into the structure or there would be none there.

Local Interest Here.

This structure has already been checked by a number of the big company geologists and an appointment has been made by a recognized geologist of the major companies to work this structure out and make a report next week. Henry Willard, of Abilene, spent quite a bit of time on this structure and made the statement that "I have as much confidence in this structure producing as I did in my well in Callahan county before it came in."

The machinery of the Dansiger Oil and Refining Company well on the Amon Williams Ranch is to be moved on the location and H. L. Lewis, the field manager, says that this proposition will be handled in the same method as the Williams well, and expects a more enthusiastic operation of the major companies due to the favorable evidence and favorable geology. A majority of the major companies purchased holdings in the Williams well and some of the majors have spoken for some definite shape. There is also going to be a great deal of local interest

taken in this one. One set of men have already made arrangements for \$5,000 worth of holdings.

Holden In Charge.

There is going to be no stock for sale, every interest will be straight assignments of 88 producers' leases. The drilling of this well will be in charge of L. L. Holden. Mr. Holden enjoys the distinction of having been sent by the Oil Well Supply Company of Roumania, Russia and Siberia to introduce American methods of drilling. Their system then required two and three years to drill a well that he would drill in thirty days with a rotary drill. M. O. Danziger says that he considers that Mr. Holden is one of the most capable men in the business and feels perfectly satisfied when he has charge of any wild-cat well he is drilling.

Roland Herbert is going to be night driller and is a man of some 20 years' experience in the oil business and is considered by the oil fraternity as one of the best in the business. He and Mr. Holden have long worked together and understand each other's methods. Mr. Holden and Mr. Herbert are both interested in the company and are enthusiastic over the prospects and are firmly convinced that they can bring that oil showing to the top and be wonderfully repaid for their labors. The management says that there need be no mysteries connected with this well as the acreage has been blocked solid and feel a gratitude to the land owners in their co-operation.

Big Community Fair September 28

Prof. and Mrs. W. G. Colson and Mrs. Will Presnal of Taber were in Bryan today finishing up the final arrangements for the Taber Community Fair, for Friday, September 28. The Taber people have made great preparations for the fair. Booths have been erected where the best products of cotton, corn, hay, oats, alfalfa, etc., from the farm will be on exhibit. Also the home has not been forgotten. It, too, will be represented by the housewife with her products of cakes, bread, preserves, sewing, and fancy work. In fact the best produced in the Taber community will be on exhibit. Besides the exhibits other attractions have been planned. A big basket dinner, baseball game, radio station, baby show, and other things.

TABOR PLANNING FOR BIG COMMUNITY FAIR SEPTEMBER 28

Prof. and Mrs. W. G. Colson and Mrs. Will Presnal of Taber were in Bryan today finishing up the final arrangements for the Taber Community Fair, for Friday, September 28. The Taber people have made great preparations for the fair. Booths have been erected where the best products of cotton, corn, hay, oats, alfalfa, etc., from the farm will be on exhibit. Also the home has not been forgotten. It, too, will be represented by the housewife with her products of cakes, bread, preserves, sewing, and fancy work. In fact the best produced in the Taber community will be on exhibit. Besides the exhibits other attractions have been planned. A big basket dinner, baseball game, radio station, baby show, and other things.

TWENTY INDICTMENTS RETURNED BY GRAND JURY FOR BRAZOS

"We, the grand jurors duly empanelled at this September term, A. D. 1924, of the District Court for Brazos county, hereby respectfully submit the following final report: We have been in session for the past five days, and have carefully and painstakingly investigated all violations of the law brought to our attention, or known to any member of our grand jury. During the course of our deliberations, we have examined into about twenty-five cases and return herewith twenty felony indictments. The bailiffs appointed by this body have been zealous in the performance of their duties, and the witnesses summoned have, in most cases, responded promptly. We have no complaints to make of any conditions in regard to county buildings or property. We find general conditions over Brazos county in good condition, as far as law observance is concerned."

The above is the text of the grand jury report made to the District Court, Judge W. C. Davis on the bench. The grand jury reported about 4 o'clock Friday afternoon, the above report having been signed by I. B. Todd, foreman of the grand jury. The several indictments are not available for publication at this time as it might cause some suspect to escape and evade the law and justice.

In the tabulated box accompanying this article will be noted the precincts of the county, together with their full vote cast in the second Democratic Primary, the quota that is to be raised and the precinct Chairman appointed by Mrs. Lee J. Rountree, county chairman. Mrs. Rountree has been named by W. L. Clayton of Houston, Texas Director, as Chairman for Brazos County in the Democratic National Campaign, Finance Department, to raise funds for the election of the Democratic Presidential ticket, Davis and Bryan. This work applies only to the national campaign and does not deal with the state or local situation. Mrs. Rountree has appointed these precinct chairmen after considerable thought and deliberation in order to secure the best ones to fill the places in the various and several precincts. The quotas allotted to each of the precincts has been figured from their votes cast in the last primary to make it fair and just for all. Texas' quota is \$250,000; Brazos county's is \$1500. Let's put this drive over the top, is her attitude on the matter and she asks the hearty cooperation of everyone and that every voter give one dollar at least, which will be given out from time to time, she added. Checks can be mailed or donations left with Mrs. Lee J. Rountree or given to any of the local chairmen.

PRECINCT QUOTAS AND CHAIRMEN, DEMOCRATIC NATIONAL CAMPAIGN, FINANCE DEPARTMENT

OPENING OF FORTY-NINTH ANNUAL SESSION A. & M. COLLEGE TODAY

Largest Enrollment for First Day of New Year in History of Institution Recorded—President Bizzell Welcomes Students and Harry H. Rogers, District Governor of Rotarians Makes Address.

(Special to the Eagle)

COLLEGE STATION, Sept. 19.—President W. B. Bizzell officially declared the opening of the forty-ninth annual session of the A. and M. College this morning, after he had greeted and given fatherly advice to 2100 students, the largest enrollment for the first day of a new year in the history of the College and following a fervent and heartily received address by Harry H. Rogers, of San Antonio, district governor of Rotarians.

BIZZELL GREETS STUDENTS

President Bizzell acknowledged the task of the College in the acceptance of the student body as that of making collegians intelligent, moral and social minded human beings and expressed the hope that the A. and M. College could do that for more of the entrants this year than in any previous session. However, he gave the warning that there were those who would unfit themselves for such development by failure to adopt themselves properly to their new relationships and frankly pointed out how men had failed in past sessions as clear warning to the new ones.

Rogers in Address.

Mr. Rogers gave in five parts his formula for meeting the problems of the world. Success, he said, was dependent upon the establishment of proper relationships in our life. The first in importance of these he said was with God, and next in order of importance, country and mankind. To do this man must have industry, education, honesty, co-operation and optimism, the combination of which would make of each man a good citizen of the country. He emphasized the fundamental Christian elements in our government, declaring that in prayer Washington found success in giving us political liberty, in prayer inspiration was gained to make the constitution which has guided the democracy of the United States, through prayer our legislatures and our courts have been enabled to direct our government, and even the use of our money betrays our recognition of divine direction. He warned students that without an education they had only one chance in 150,000 trials to succeed financially while with a collegiate training they had 800 chances in the same number of trials. In co-operation with their fellowmen he saw the only opportunity to do things worthwhile, explaining that no single mind and no individual pile of wealth was able to do the big things of our country in the great state to which it has developed. The fifth necessity to establish the proper relationship in life, he said, was a spirit of optimism, which could see that the world was growing better.

In the conclusion of the program President Bizzell introduced the denominational pastors who each in turn urged close allegiance to their church affiliations and active participation in religious meetings. Among the group was the Presbyterian pastor who is beginning his work at the College this year, Reverend Fred Hancock, in America on leave of absence after 16 years' of missionary work in China will take up the work done by W. H. Matthews before his retirement to direct the Y. M. C. A. as secretary.

On the front rows in the chapel this morning were a large group of Bryan and College Rotarians.

NEGRO KILLED FRIDAY NIGHT IN BURLESON—NEGRO SHOT MUDVILLE

The body of Ed Campbell, negro, was shipped by the Peoples' Undertaking Company, colored, today to Dallas, his former home for burial. He was shot last Friday night by his wife, at their home on the Parker Estate plantation, near Parker's Upper Store, following an altercation. The weapon used was a shotgun. The above information was furnished by the local Undertaking establishment which understands that the woman had been arrested by Burleson county officials and has been released on bond.

Beulah Reed, negress, was arrested Saturday morning and brought in to Bryan from Mudville charged with shooting a negro with a shotgun, in a quarrel. She paid a fine and was released this morning. The charge of shot is said to have struck the negro in the shoulders from the rear as he ran.

GENEVIEVE BARRON INJURED ON FRIDAY

Bess Brown and Genevieve Barron, the latter the daughter of Mr. and Mrs. W. S. Barron, were riding their bicycles down West 26th street on Friday afternoon. A passing car, driven by Mack Mize, collided with the girls and their bicycles, throwing them off their machines. The little Brown girl was only slightly bruised while the Barron child was knocked unconscious and had to have medical attention. While her injuries are said to be not serious, still they are painful.

BRYAN BOY ENTERS PRINCETON SEMINARY

Whitman H. Fuller, son of Mr. and Mrs. F. D. Fuller left this noon for Princeton, N. J., where he will enter Princeton Theological Seminary and the graduate school of Princeton University. Mr. Fuller was graduated from Austin College in 1923 and during the past year has been field worker in Sunday school and Christian Endeavor extension for the Brazos Presbytery. En route to Princeton, Mr. Fuller will visit his sister, Mrs. L. L. Ruggles and family at Chicago, Illinois, and his brother, Allan C. Fuller at Buffalo, New York.

Henry P. Wilson, Federal student in placement training on Dr. R. B. Ehlinger's farm near the Country Club left Saturday morning for the U. S. Hospital at Muskogee, Okla.

GRASS FIRE AT COLLEGE RESULTS IN A FIVE THOUSAND DOLLAR LOSS

College Cottages Occupied by W. B. Lanham and J. J. Taubenhau (Completely Destroyed—Loss of \$4,000 With No Insurance—Most of Furniture removed from Homes.

One of the largest fire losses that the A. and M. College has suffered in many months, which would mean considerable to an individual but which is rather a small item when considered with the worth of this great institution, occurred on Friday afternoon, beginning about four o'clock, resulting in the loss of two cottages, some furniture and damage to furniture in a third house. The two buildings lost were occupied by the families of W. B. Lanham and J. J. Taubenhau. It was only by the heroic work of the Bryan Fire Department, both trucks of which answered the call, that a third house occupied by the family of J. B. Bagley was saved. The A. and M. student body responded to the alarm and it was due to them alone that the furniture of the three houses, almost all of it, was gotten out with only slight damage.

GRASS FIRE SPREAD

The fire originated from the grass having been caught by a fire in an adjoining yard used in connection with the repair of an adjacent house. A spark from this small fire, used to mix paste for papering the house, is said to have spread to grass, which in turn set the homes on fire. The long drouth is responsible for the dry condition of both grass and buildings which made them as flinder for the flames and they burned with great rapidity. The Lanham home, which caught first, was very close to the Taubenhau residence and the latter could not be saved on account of the high wind. It was only by drenching the Bagley cottage with water from the hose laid by the Bryan fire department trucks that this latter cottage was saved from loss. While it was a serious loss, both to the College and to the residents of the structures destroyed, it was fortunate that it was no worse as it might easily have been had not the firemen responded so promptly, especially the Bryan department, as the College equipment was said to have been inadequate to control the situation.

PROF. AND MRS. P. S. MANGUM BACK EDGE

Prof. P. S. Mangum and family have just moved back to Edge where they will teach again, making their fourth consecutive year in the Edge school. School opens today, September 22nd. Mrs. Mangum will have charge of the primary department and home science, and Prof. Mangum will have charge of the high school subjects. Miss Bertie Risinger will teach the intermediate department with the assistance of Mrs. Dauphin of Lovelady. Mrs. Dauphin will also have charge of the music work. The work of the Edge school and the Edge community is receiving more and more recognition. This community is known state-wide now for the splendid work done along many lines and especially along the boys' and girls' club work. Edge is the home of the The Blue Ribbon Forty, State champions for 1922, and second by a half per cent margin to the State winner in 1923. Prof. Mangum says if the Blue Ribbon Forty doesn't win again this year that the club that does win will have to go some. We are expecting great work from this community this year. Prof. Mangum says the reason he is going back to Edge for another year is to round out the program of work that he and Mrs. Mangum laid out for themselves four years ago. He believes in completing what he plans out.

Rev. J. J. Tatum motored in home from Bruceville on Monday, where he assisted in the services at the Free Baptist church Sunday. He reports roads in fine condition following light showers all along the line.

CONTRIBUTIONS BEING RECEIVED TO NATIONAL DEMOCRATIC DRIVE FUND

The Hon. F. L. Henderson, this city, heads the list with a five-dollar donation to the National Democratic Campaign Fund being raised in Brazos county under the direction of Mrs. Lee J. Rountree, county chairman, according to announcement made this morning. Other contributions, each of \$5 were received in the course of the day, made direct to Mrs. Rountree, but none of the precinct chairmen have as yet reported. The drive has hardly started but from all indications the people are going to "loosen up" and provide the necessary lubricant to grease the wheels for a Democratic victory in November, the election being less than two months distant. When approached on this subject the voter should have already had his mind made up as to how much he can give and be ready to do his bit for Democracy. Duty calls in the Democratic party.

ATHLETIC COUNCIL AT A-M. MAKES REGULATIONS ON PARKING CARS

In parking autos at Kyle Field during the football season the following plan has been adopted by the Athletic Council, according to James Sullivan, business manager, department of physical education. All cars parked on the inside of Kyle Field will be parked on the Freshman football field, the space just north of the baseball stand. The cars will be parked in rows headed south toward the rear of the baseball stand.

Only Two Blocks Away.

Some complaint was made to this parking arrangement Saturday due to the distance the people had to walk in order to reach the seats in the football stands. The farthest distance possible is less than two hundred yards, or two city blocks. In Houston, Dallas, Austin, or Waco, one would be fortunate if they could park their cars within seven or eight

CIVIL SETTINGS FOR SEPTEMBER TERM OF DISTRICT COURT HERE

Monday and Tuesday mornings were consumed by the district court. Judge W. C. Davis on the bench, settling the civil docket and the criminal docket will be set after the grand jury has made a report on its investigations which may not be before the first of next week. The first, fifth and sixth weeks are set aside for the trying of civil cases and the third and fourth weeks for criminal cases. The following are the settings made by the court, beginning next Monday morning, this week having been set aside for a non-jury docket of divorce cases and others not requiring a jury.

Second Week of Court.

Monday, September 22, Allen Smith vs. C. R. Wood, suit on note.

Monday, September 22, Thelma Broach vs. M. S. Broach, et al, suit for damages and misappropriation of trust funds.

Tuesday, September 23, L. D. Palermo vs. Peter Tremonte, appeal from Justice Court, Precinct No. 4.

Wednesday, September 24, Sarah Vasta Palermo vs. L. D. Palermo, suit in support of defendant's children.

Thursday, September 25, Ludwik Kana vs. Jno. Kana, suit for divorce and partition of property.

Fifth Week of Court.

Monday, October 13, Mrs. Laura Koppe vs. L. W. Routt, et al (suit for damages).

Monday, October 13, Mrs. Annie L. Batte and T. R. Batte, Jr., A. K. Patterson, (suit on contract).

Monday, October 13, J. E. Edwards vs. Sam Washington (suit on note).

Monday, October 13, Commercial Jewelry Co. vs. Frank Braczyk, (suit on account).

Tuesday, October 14, Carrie Johnson vs. I. and G. N. R. R. (suit for damages).

Wednesday, September 15, Oscar Nelson vs. H. and T. C. R. R. (suit for damages).

Wednesday, September 15, Allen Smith vs. H. and T. C. R. R. (suit for damages).

Thursday, October 16, Eunice W. Randall et al vs. Sank Williams and R. Q. Neely (suit for possession of land and to remove cloud from title).

Thursday, October 16, J. K. Pressler vs. J. T. Price (suit for advances).

Sixth Week of Court.

Monday, October 20, Robt. Turner by next friend C. C. Carruthers vs. I. and G. N. R. R. (suit for damages).

Monday, October 20, T. G. Frazee vs. Bryan College Traction Co., (suit for commission).

PROF. SCOATES LETS CONTRACT FOR BUILDING OF HANDSOME RESIDENCE IN COLLEGE PARK

Prof. D. Scoates of the agricultural engineering department of A. and M. College, has let the contract to the Lone Star Construction Company for the building of a handsome residence in College Park. Excavation is being made for a basement and concrete foundation. A hot air furnace will be installed, and a real fireplace, too. There will be reception hall, living room, dining room, sun parlor, kitchen and breakfast nook, service porch on the first floor. Upstairs there will be four bedrooms, bath and sleeping porch with ample closets throughout. The same company is remodeling the home of Mrs. R. M. Wilson, 3315 College avenue, and adding an extra apartment to the residence. This work will be finished the first of next week.

Einar Stube, architect, spent Thursday in Bryan and Hearne looking after his interests at these points.

FORMER BRYAN BOY WITH HOUSTON AMUSEMENT CO.

"It seems that the list is incomplete unless you are on it, so enclose you will find, or please accept one of our passes. Come to see us whenever you are in town. Best wishes to the Eagle and all the force," was the text of a letter received today from our good friend S. R. Simpson, formerly of Bryan, but now manager of the Houston Amusement Park, Inc., of Houston. It will be gratifying to the many Bryan friends to know that Mr. Simpson is scoring a success in his new field of endeavor.

EBERSTADT ENJOYING VACATION AT HOME AT JEFFERSON, TEXAS

"I am not enjoying my vacation at all for the reason that I have not received a single copy of the Eagle, and you know me when I don't get to read your fine daily every day—things just don't seem to move along right. Please send me Thursday, Friday and today's paper, and don't forget them next week, for I am truly lost without knowing the Bryan news," writes Secretary S. E. Eberstadt, from Jefferson, Texas, who accompanied his mother, Mrs. Anna Eberstadt, home, and is taking his vacation at this time. "Things are awfully dull in this section, half-crop of cotton, no corn or other feed stuff, no ribbon cane, which means no fine syrup, and these people are feeling somewhat blue.

"I am enjoying a fine rest, sleep until 8:30; have fine cats and just take life easy. Next week I want to go to Caddo Lake for a day of fishing for white perch and trout. Plan to leave here on a morning about 4 and come back after night. Have a friend that has a fine, fast motor boat.

RAINBOW HELD ITS INSTALLATION LAST NIGHT AT TEMPLE

A large crowd was attracted to the Masonic Temple on Friday evening at 8 o'clock to witness the beautiful installation exercises, when the newly elected officers of Bryan Assembly No. 41, Order of the Rainbow took their official positions for the coming quarter. The hall was adorned with cut flowers in baskets and bowls and luxuriant ferns in benks of beauty gave added attraction. The meeting was called to order by Mrs. Albert Buchanan, chairman of the advisory board of the assembly, who gave a word of welcome, and spoke of the many benefits to be derived by the young girls who enter the Rainbow Order. The basic principals of the work, and the beautiful influences of its ritual were emphasized by Mrs. Buchanan, and she closed her remarks by declaring that the Bryan Assembly, Order of the Rainbow is a pride of Bryan and Brazos county. Miss Ethyl Walton, who has served the Bryan Assembly as Worthy Advisor for the past three months with credit to herself and to the organization, acted as installing officer, as the following were introduced and took their official positions: Lalla Dean Randolph, Worthy Advisor; Wava Martin, Worthy Associate Advisor; Charity, Estelle Meyers; Hope, Eugenia Cochran; Faith, Eula Frances Dunn; Chaplain, Pauline McCulloch; Secretary, Florence Means; Treasurer, Elliott Beason; Drill Leader, Dorothy Graham; Organist, Mary Bess Mitchell; Choir Director, Katherine Mitchell; Love, Rita Kraft; Religion, Lucile Hensarling; Nature, Lillie Mae Walton; Immortality, Mary Bolton; Fidelity, Mamie Griffin; Patriotism, Susie Butler; Service, Eugenia Suber; Confidential Observer, Monette Groginsky; Outer Overseer, Ida Belle Higgs; Choir, Amelia Cochran, Ralphanna Searcy, Louise Martin, Nellie Eden, Jane Reynolds; Mrs. R. L. Brown, Mother Advisor. Advisory Board: Mrs. Albert Buchanan, Mrs. Donna Carnes, Mrs. Oak McKenzie, Mrs. G. L. Lee, J. D. Martin, H. E. Randolph, M. M. Erskine and Rev. R. L. Brown. After a short talk by Mrs. Brown, the Mother Advisor, Miss Lalla Dean Randolph, the newly installed worthy advisor called the program of the evening, every number of which was a gem and thoroughly enjoyed by all present. The program follows: Instrumental solo, Jane Reynolds; Reading, Miss Louise Martin; Vocal Duets, Misses Mary Beth and Katherine Mitchell, with Miss Beaumont as accompanist; Piano Solo, Miss Wava Martin; Reading, Miss Ralphanna Searcy. At the close of the program, the Rainbow Girls and their visiting friends enjoyed a social half hour with delicious refreshments served in the banquet hall on the ground floor of the Masonic Temple.

The pall bearers were—Active: W. C. Boyett, John M. Lawrence, J. M. Ferguson, Jim James, J. W. Batts, and A. W. Buchanan; honorary: Sam Cavitt, M. W. Sims, H. P. Danks, T. C. Nunn, Walter Wiprecht, T. A. Adams, Curt Oliver, Frank Zwick, C. E. Jenkins, A. J. Buchanan, Dr. W. H. Oliver, Rev. Edward Pos, Joe Groginsky, C. E. Jones, J. D. Conlee, J. W. Hamilton, George A. Adams, Jno. A. Moore, J. D. Jones, M. E. Wallace, M. G. Buchanan, and B. P. Smith.

PYTHIANS WORKING RAISE QUOTA FOR GIRLS' DORMITORY

There is a campaign on foot over the State of Texas for funds to build a girls' dormitory at the Knights of Pythias Home at Weatherford. This extra dormitory is very badly needed—so badly that one of the little girl orphan inmates has pledged the \$34 in the bank which is her savings and sole property. The Pythians of Bryan have set as their quota \$2,000 and are working to raise this sum or the greatest possible part of it. The following committee has been named: George A. Adams, F. L. Henderson, Oak McKenzie, W. O. Sanders and Robert Kellner. They have conducted solicitations at various times but the drive is not yet over and during the next two weeks is to be put on with added enthusiasm. Not only Pythians are urged to give at least one dollar per member but all people, whether affiliated with this lodge or not, if a friend to children of unfortunate parents, are given an invitation to donate to a worthy cause.

Eagle want ads get best results.

BRYAN MUSIC STUDY CLUB SIGNS CONTRACT FOR REAL ARTIST HERE

Perhaps the best indication of the trend of thought in an organization is found in their efforts to serve others. This being granted the Bryan Music Study Club has been one of striking endeavor. Realizing the value of good music to a community and believing it impossible to cultivate an appreciation of good music without hearing it, they have planned for this year as their contribution to the community the bringing of a real artist to Bryan, and today the Bryan Music Study Club signed the contract for the booking of Miss Cecil Arden of the Metropolitan Opera Company to appear in Bryan Friday, October 31st at the Palace Theatre. Miss Arden is a young American artist. She is the possessor of a brilliant Mezzo-Soprano. Her second engagement at the Metropolitan Opera Co., for the third season speaks for itself of her artistic value. It is said her voice is full clear, sweet flexible and she is the possessor of the most-to-be-desired attributes—youth and charm.

BAPTIST CHURCH AT COLLEGE HAS GREAT DAY LAST SUNDAY

The Baptist church of College Station had by far its greatest day on Sunday. Almost 200 were enrolled in Sunday school, according to Rev. R. L. Brown. A children's department was organized with 21 present at the first meeting. The freshmen made the best showing with 98 present. A large crowd attended the B. Y. P. U. and preaching services at the close of which 35 united with the church. It is interesting to note that more joined the church the first night than united with us all last year. We are expecting a great program this year.

CHARLEY BOBO TAKEN TO BRYAN HOSPITAL FOR AN OPERATION—APPENDICITIS

Charley Bobo, formerly of Tabor, but late of Hico, Texas, was taken to the Bryan Hospital for an operation for appendicitis. Mr. and Mrs. Bobo and children are visiting her people, the McCalls of Tabor, for the past few weeks and Mr. Bobo has been working in the McCalls gin at Tabor. Mr. Bobo taught the Tabor high school for two or three years and will teach this coming winter at Buffalo Gap.

FUNERAL SERVICE FOR R. M. NALL WAS HELD ON THURSDAY

The funeral service for R. M. Nall, whose death occurred at his home in this city Wednesday morning, was held at 4 o'clock Thursday from his late residence. Great crowds of friends and acquaintances gathered at the appointed hour to pay a last tribute of love and respect to a man who has left his imprint for good upon the world and passed to his eternal rest, honored and revered by all who knew him.

Dr. John A. Held, pastor of the First Baptist church of Bryan, of which deceased had been a consistent member for thirty-five years, conducted impressive and beautiful service. After the reading of the scripture lesson by Dr. Held, a choir of selected voices rendered "Jesus Lover of My Soul," and later, the hymn, "Will There Be Any Stars in My Crown," a favorite of Mr. Nall's through all his life, was beautifully sung by Mrs. George A. Adams and Mrs. H. O. Boatwright accompanying on the piano. After a brief sketch of the life of deceased, and expressions of appreciation of one who had lived a life of usefulness and helpfulness to all around him, the pastor prayer the closing prayer. As the casket was being removed from the home, the choir sang "Nearer My God To Thee." The services were concluded at the grave. Mounds of exquisite flowers, gifts of love and sympathy from friends in this city and over the state, covered the new made grave, and bespoke the high esteem in which deceased was held by hosts of friends and loved ones.

The pall bearers were—Active: W. C. Boyett, John M. Lawrence, J. M. Ferguson, Jim James, J. W. Batts, and A. W. Buchanan; honorary: Sam Cavitt, M. W. Sims, H. P. Danks, T. C. Nunn, Walter Wiprecht, T. A. Adams, Curt Oliver, Frank Zwick, C. E. Jenkins, A. J. Buchanan, Dr. W. H. Oliver, Rev. Edward Pos, Joe Groginsky, C. E. Jones, J. D. Conlee, J. W. Hamilton, George A. Adams, Jno. A. Moore, J. D. Jones, M. E. Wallace, M. G. Buchanan, and B. P. Smith.

PYTHIANS WORKING RAISE QUOTA FOR GIRLS' DORMITORY

There is a campaign on foot over the State of Texas for funds to build a girls' dormitory at the Knights of Pythias Home at Weatherford. This extra dormitory is very badly needed—so badly that one of the little girl orphan inmates has pledged the \$34 in the bank which is her savings and sole property. The Pythians of Bryan have set as their quota \$2,000 and are working to raise this sum or the greatest possible part of it. The following committee has been named: George A. Adams, F. L. Henderson, Oak McKenzie, W. O. Sanders and Robert Kellner. They have conducted solicitations at various times but the drive is not yet over and during the next two weeks is to be put on with added enthusiasm. INJUNCTION SUIT AGAINST HOLDING SCHOOL ELECTION LOST IN DISTRICT COURT

The injunction suit brought in district court by parties of the Millican district against the holding of an election to vote bonds for the purpose of building new buildings, and employing additional teachers in that district, lost today in district court, according to information from the office of County Attorney Oak McKenzie. The defense was conducted by F. L. Henderson and Armstrong & Armstrong. Attorneys for the plaintiff, Judge W. S. Dean of Navasota and W. S. Barron of Bryan, have given notice of appeal.

ANOTHER PROGRESSIVE STEP BEING URGED BY LIONS CLUB OF BRYAN

During the course of the meeting of the Lions Club of Bryan at the basement of the Episcopal parish today, Tom Suber brought up for discussion a very important matter to everyone concerned—which includes about every motorist in the county. He called attention to how the people park on the streets and the inconvenience to other motorists on busy days, especially Saturdays. He urged that a committee be appointed to go before the city commission and city manager to see if something could not be done to secure legislation on this subject or some action that would tend not only to park more cars in less space but also aid in decreasing the number of accidents when one car backs out from where it is parked. He suggested that lines be laid out on the pavement from the curbing into the street to designate where cars should be parked. Securing a second to the motion, Dr. Seary put it to a vote and receiving an affirmative, appointed on the committee: M. M. Erskine, W. W. Chambers and Roy Nunn.

After the splendid luncheon which was set before the Lions, had been fully taken care of, President C. A. Seary introduced a new visitor, a Lion, E. V. Spence, who is a graduate from A. and M. College, having attended there from 1907 to 1911, and who is now returning for a post-graduate course. He said that Bryan and College were like home to him and he wished to have his membership in the Lions transferred to Bryan.

W. W. Chambers was in charge of the program today and the meeting was then turned over to him. He introduced Miss Alma Robinson and Mrs. Roy Danforth for the musical part of the program. Miss Robinson sang, "His Lullaby" by Carrie Jacobs Bond and "Dreamy Melody", the latter as an encore, Mrs. Danforth accompanying. Both numbers were well rendered and received much applause. The program leader then called upon Dr. Seary to call each Lion present by their proper names as Lions, which he proceeded to do to the delight of all present when he stumbled and hesitated over one or two.

Gasoline vs. Soda Water. M. M. Erskine had delivered quite an oration on absent Lions being dead ones, in honor of W. W. Chambers who has been absent two or three times when named as leader for the program. Then Pat Newton had to substitute for Lion Armstrong and he read a fine paper on "Object of Lionism". M. M. Erskine was asked to tell of his gasoline connections as a brief classification talk in the absence of J. W. Hall stated for that subject. Erskine said he was stressing the soda-pop business now as he wanted to take up his work step by step from the beginning.

After a rising vote of thanks had been taken for the musical numbers and in person to Mrs. Danforth and Miss Robinson, and after an expression of the Club's appreciation of the service being rendered by the Guild in serving such splendid luncheons with the accompanying fine service, Dr. Seary announced that Jess Cook would be leader next week and Jess Hensarling would give the classification talk.

CONTRIBUTIONS ARE COMING IN SLOWLY TO CAMPAIGN FUND

"I noticed in the paper that you have been appointed chairman for the voting precinct in which we live to collect campaign contributions for the Democratic presidential campaign. I am enclosing check for my usual contribution to the presidential campaign. Hoping that you may have good success," etc., is the text of a letter from W. W. Wiprecht to Mrs. W. S. Howell, chairman of the court house precinct for the drive for the campaign funds for Davis and Bryan, enclosing a check for \$10. "This is the spirit that will put this drive over," said County Chairman Mrs. Lee J. Rountree. "He did not wait to be solicited but realized that the time of the chairman would be full and sent in his contribution to the cause of democracy, unsolicited. Other contributions are being received, but not in the number desired. It is up to the people to support the party in a tangible way if tangible results are to be secured. Talk of party loyalty is useless without adequate party support. There's many others to be heard from."

NEW BUNGALOW BEING ERECTED AT UNION HILL FOR DR. R. B. EHLINGER

Just east of the Country Club on the 40 acres which Dr. R. B. Ehlinger has owned for the past three years, he is constructing a second bungalow, the one now there and owned by him being rented. Dr. Ehlinger plans to live in the one which was begun Friday of last week. It is to be a five-room bungalow.

BRYAN STUDENTS WHO HAVE GONE AWAY TO ENROLL IN COLLEGES

The week just closed has taken many of Bryan's girls and boys away to school, and the busy season of study and application has come again after a pleasant vacation. A partial list of those who have entered school for the 1924-25 term, from Bryan, follows: Miss Gene Edge, Brenau College, Gainesville, Ga.; Ward Moore, Harvard University; W. H. Fuller, Princeton University; Miss Nanne Shel Waldrop, Miss Francelle Roberts, Miss Josephine Eden, William Allen, to Southern Methodist University, Dallas; Miss Jane Oliver, Miss Elizabeth Cline, Sullins College, Bristol, Va.; Miss Louise Cline will be a teacher at Sullins College, Virginia; George B. Butler, Jr., Ray Jones, Baylor University, Waco; Miss Patti Sims, Miss Onah Asin, Miss Gertrude Sims, Miss Elaine Bizzell, Sanford Gibbs, State University, Austin; Miss Helen Held, Burleson College, Greenville; Miss Katherine Higgs, Miss Louise Pipkin, Miss Merle Minkert, Miss Mary Lillie Fountain, Baylor College, Belton; Miss Pearl Wallace, Kidd-Key College, Sherman; Miss Helen Kerr Parks, Miss Kate Hall of Steep Hollow, Miss Josephine Crute, Miss Elizabeth Adkins of Wellborn, Miss Sue Mae Sanders, Miss Annie Vandeworth, College of Industrial Arts, Denton; Miss Estelle Caldwell, Gaudalett College, Washington, D. C.; Frank Higgs of Bryan and Emma Linz of Kurten to the Texas School for the Deaf at Austin; Miss Priscilla Sims, Sophia Newcomb College, New Orleans; Miss Aline Smith, Miss Texas Orms, Miss Evelyn Crawford, Miss Esther McCulloch, Miss Alta Edge, Miss Myrtle Dillard, Miss Malcolm McInnis, M. E. Wallace, Jr., J. D. Martin, Jr., Miss Lily Bess Kyle, Joe T. Maloney, Jr., William Armstrong, Mit Dansby, Norman Dansby, Jimmie Bunting, Bill Bethea, Bill Oliver, Allister Waldrop, Emory Franklin, A. and M. College of Texas.

While the above list is not complete, it is evidence that the young people of Bryan are seeking for higher education, and thereby preparing themselves for the great work that lies out so invitingly before the men and women of the future. Bryan is proud of this fact, and the best wishes of the people of this city are with every student in the list as given above and all others whose names may be added it in the coming days.

JONES-SCHWARTZ WED

On Saturday night at 8 o'clock at the Christian parsonage, Rev. L. Guy Ament officiating, Mrs. Maurine Schwartz and W. T. Jones were quietly married in the presence of a few friends who had been left into the secret. Immediately after the ceremony the happy couple left for a short wedding trip, returning to Bryan today. Mr. Jones holds a position with the Texas Oil Company and Mrs. Jones is employed at the Sam B. Wilson Woman's Department Store, and both have many friends who are today extending congratulations and best wishes.

Weak Nervous

"I was weak and nervous and run-down," writes Mrs. Edith Sellers, of 466 N. 21st St., East St. Louis, Ill. "I couldn't sleep nights, I was so restless. I felt tired and not in condition to do my work. I would have such pains in my stomach that I was afraid I would get down in bed. My mother came to see me and suggested that I use

CARDUI The Woman's Tonic

I felt better after my first bottle. I had a better appetite. It seemed to strengthen and build me up. I am so glad to recommend Cardui for what it did for me. I haven't needed any medicine since I took Cardui, and I am feeling fine."

Nervousness, restlessness, sleeplessness—these symptoms so often are the result of a weak, run-down condition, and may develop more seriously if not treated in time.

If you are nervous and run-down, or suffering from some womanly weakness, take Cardui.

Sold everywhere. E-105

NOTHING LIKE IT ON EARTH

The new treatment for torn flesh, cuts, wounds, sores or lacerations that is doing such wonderful work in flesh healing is the Borzone liquid and powder combination treatment. The liquid Borzone is a powerful antiseptic that purifies the wound of all poisons and infectious germs, while the Borzone powder is the great healer. There is nothing like it on earth for speed, safety and efficiency. Price (liquid) 20c, 60c and \$1.20. Powder 30c and 60c. Sold by M. H. JAMES DRUG CO.—BOTH STORES

O. P. GRESHAM, EDITOR BANNER-KNIGHT AT TEMPLE VISITS BRYAN

O. P. Gresham of Temple, editor of the Pythian Banner-Knight, the official organ for Texas of the K. of P., was in Bryan on Monday looking after his large subscription list in this city among the membership of the local lodge. He said that the Bryan chapter had done great work in underwriting scholarships for the inmates of the Lodge Orphanage at Weatherford, Texas. He added that on his trip here he had induced a local member and officer to take care of the expenses of one girl for her junior year in College, her freshman year having been taken care of by a Houston man. A hundred and fifty students have already been graduated from this school at Weatherford which includes the upper grade work and some of the high school. Mr. Gresham has been connected with the Banner-Knight for the past 21 years of its 40 years' of successful existence. He was welcomed by many friends in this city.

HIGH SCHOOL NOTES

F. C. Laslette, state lecturer for the Near-East Relief, from Dallas, was in Bryan on Monday and at the morning chapel service gave a very interesting, inspirational and instructive talk on the subject of "Making Good in Life."

New tables have been provided for the accommodation of the class in bookkeeping. The class fully appreciates the added conveniences.

Thirty table arm-chairs have been purchased to help out under the congested conditions in the high school.

Miss Susie Mae Sanders and Miss Annie Vandeworth left last night for Denton where they go to enter the College of Industrial Arts the coming session.

GRASS FIRE AT COLLEGE RESULTS IN A FIVE THOUSAND DOLLAR LOSS

College Cottages Occupied by W. B. Lanham and J. J. Taubenhaus Completely Destroyed—Loss of \$4,000 With No Insurance—Most of Furniture removed from Homes.

One of the largest fire losses that the A. and M. College has suffered in many months, which would mean considerable to an individual but which is rather a small item when considered with the worth of this great institution, occurred on Friday afternoon, beginning about four o'clock, resulting in the loss of two cottages, some furniture and damage to furniture in a third house. The two buildings lost were occupied by the families of W. B. Lanham and J. J. Taubenhaus. It was only by the heroic work of the Bryan Fire Department, both trucks of which answered the call, that a third house occupied by the family of J. B. Bagley was saved. The A. and M. student body responded to the alarm and it was due to them alone that the furniture of the three houses, almost all of it, was gotten out with only slight damage.

GRASS FIRE SPREAD

The fire originated from the grass having been caught by a fire in an adjoining yard used in connection with the repair of an adjacent house. A spark from this small fire, used to mix paste for papering the house, is said to have spread to grass, which in turn set the homes on fire. The long drought is responsible for the dry condition of both grass and buildings which made them as flinder for the flames and they burned with great rapidity. The Lanham home, which caught first, was very close to the Taubenhaus residence and the latter could not be saved on account of the high wind. It was only by drenching the cottage with water from the hose laid by the Bryan fire department trucks that this latter cottage was saved from loss. While it was a serious loss, both to the college and to the residents of the structures destroyed, it was fortunate that it was no worse as it might easily have been had not the firemen responded so promptly, especially the Bryan department, as the college equipment was said to have been inadequate to control the situation.

PROF. AND MRS. P. S. MANGUM BACK EDGE

Prof. P. S. Mangum and family have just moved back to Edge where they will teach again, making their fourth consecutive year in the Edge school. School opens today, September 22nd. Mrs. Mangum will have charge of the primary department and home science, and Prof. Mangum will have charge of the high school subjects. Miss Bertie Risinger will teach the intermediate department with the assistance of Mrs. Dauphin of Lovelady. Mrs. Dauphin will also have charge of the music work.

The work of the Edge school and the Edge community is receiving more and more recognition. This community is known state-wide now for the splendid work done along many lines and especially along the boys' and girls' club work. Edge is the home of the Blue Ribbon Forty, State champions for 1922, and second by a half per cent margin to the State winner in 1923. Prof. Mangum says if the Blue Ribbon Forty doesn't win again this year that the club that does win will have to go home.

We are expecting great work from this community this year. Prof. Mangum says the reason he is going back to Edge for another year is to round out the program of work that he and Mrs. Mangum laid out for themselves four years ago. He believes in completing what he plans out.

Rev. J. J. Tatum motored in home from Bruceville on Monday, where he assisted in the services at the Free Baptist church Sunday. He reports roads in fine condition following light showers all along the line.

CONTRIBUTIONS BEING RECEIVED TO NATIONAL DEMOCRATIC DRIVE FUND

The Hon. F. L. Henderson, this city, heads the list with a five-dollar donation to the National Democratic Campaign Fund being raised in Brazos county under the direction of Mrs. Lee J. Rountree, county chairman, according to announcement made this morning. Other contributions, each of \$5 were received in the course of the day, made direct to Mrs. Rountree, but none of the precinct chairmen have as yet reported. The drive has hardly started but from all indications the people are going to "loosen up" and provide the necessary lubricant to grease the wheels for a Democratic victory in November, the election being less than two months distant. When approached on this subject the voter should have already had his mind made up as to how much he can give and be ready to do his bit for Democracy. Buty calls in the Democratic party.

ATHLETIC COUNCIL AT A. M. MAKES REGULATIONS ON PARKING CARS

In parking autos at Kyle Field during the football season the following plan has been adopted by the Athletic Council, according to James Sullivan, business manager, department of physical education. All cars parked on the inside of Kyle Field will be parked on the Freshman football field, the space just north of the baseball stand. The cars will be parked in rows headed south toward the rear of the baseball stand.

Only Two Blocks Away. Some complaint was made to this parking arrangement Saturday due to the distance the people had to walk in order to reach the seats in the football stands. The farthest distance possible is less than two hundred yards, or two city blocks. It is hoped that all motorists would be fortunate if they could at Kyle Field in order to facilitate park their cars within seven or eight as much as possible the congestion.

Kyle Field Parking. This parking plan was adopted in order to conserve space and to avoid congestion in leaving the field. In working out any parking plan it is necessary to consider all those to be served rather than a few individuals. It is not necessary that anyone park on the inside of Kyle Field, but this space is offered to those who desire it and will cheerfully comply with a few simple parking regulations. It is hoped that all motorists would be fortunate if they could at Kyle Field in order to facilitate park their cars within seven or eight as much as possible the congestion.

PROF. SCOATES LETS CONTRACT FOR BUILDING OF HANDSOME RESIDENCE IN COLLEGE PARK

Prof. D. Scoates of the agricultural engineering department of A. and M. College, has let the contract to the Lone Star Construction Company for the building of a handsome residence in College Park. Excavation is being made for a basement and concrete foundation. A hot air furnace will be installed, and a real fireplace, too. There will be reception hall, living room, dining room, sun parlor, kitchen and breakfast nook, service porch on the first floor. Upstairs there will be four bedrooms, bath and sleeping porch with ample closets throughout. The same company is remodeling the home of Mrs. M. Wilson, 3315 College avenue, and adding an extra apartment to the residence. This work will be finished the first of next year.

FORMER BRYAN BOY WITH HOUSTON AMUSEMENT CO.

"It seems that the list is incomplete unless you are on it, so enclose you will find, or please accept one of our passes. Come to see us whenever you are in town. Best wishes to the Eagle and all the force," was the text of a letter received today from our good friend S. R. Simpson, formerly of Bryan, but now manager of the Houston Amusement Park, Inc., of Houston. It will be gratifying to the many Bryan friends to know that Mr. Simpson is scoring a success in his new field of endeavor.

EBERSTADT ENJOYING VACATION AT HOME AT JEFFERSON, TEXAS

"I am not enjoying my vacation at all for the reason that I have not received a single copy of the Eagle, and you know me when I don't get to read your fine daily every day—things just don't seem to move along right. Please send me Thursday, Friday and today's paper, and don't forget them next week, for I am truly lost without knowing the Bryan news," writes Secretary S. E. Eberstadt, from Jefferson, Texas, who accompanied his mother, Mrs. Anna Eberstadt, home, and is taking his vacation at this time. "Things are awfully dull in this section, half-crop of cotton, no corn or other feed stuff, no ribbon cane, which means no fine syrup, and these people are feeling somewhat blue."

"I am enjoying a fine rest, sleep until 8:30; have fine cats and just take life easy. Next week I want to go to Caddo Lake for a day of fishing for white perch and trout. Plan to leave here on a morning about 4 and come back after night. Have a friend that has a fine, fast motor boat."

RAINBOW HELD ITS INSTALLATION LAST NIGHT AT TEMPLE

A large crowd was attracted to the Masonic Temple on Friday evening at 8 o'clock to witness the beautiful installation exercises, when the newly elected officers of Bryan Assembly No. 41, of the Rainbow took their official positions for the coming quarter. The hall was adorned with cut flowers in baskets and bowls and luxuriant ferns in banks of beauty gave added attraction. The meeting was called to order by Mrs. Albert Buchanan, chairman of the advisory board of the assembly, who gave a word of welcome, and spoke of the many benefits to be derived by the young girls who enter the Rainbow Order. The basic principles of the work, and the beautiful influences of its ritual were emphasized by Mrs. Buchanan, and she closed her remarks by declaring that the Bryan Assembly, Order of the Rainbow is a pride of Bryan and Brazos county. Miss Ethyl Walton, who has served the Bryan Assembly as Worthy Advisor for the past three months with credit to herself and to the organization, acted as installing officer, as the following were introduced and took their official positions: Lalla Dean Randolph, Worthy Advisor; Wava Martin, Worthy Associate Advisor; Charity, Estelle Meyers; Hope, Eugenia Cochran; Faith, Eula Frances Dunn; Chaplain, Pauline McCulloch; Secretary, Florence Means; Treasurer, Elliott Beason; Drill Leader, Dorothy Graham; Organist, Mary Bess Mitchell; Choir Director, Katharine Mitchell; Love, Rita Kraft; Religion, Lucile Hensarling; Nature, Lillie Mae Walton; Immortality, Mary Bolton; Fidelity, Marie Griffin; Patriotism, Susie Butler; Service, Eugenia Suber; Confidential Observer, Monette Groginsky; Outer Observer, Ida Belle Higgs; Choir, Amelia Cochran, Ralphanna Searcy, Louisa Martin, Nellie Eden, Jane Reynolds; Mrs. R. L. Brown, Mother Advisor. Advisory Board: Mrs. Albert Buchanan, Mrs. Dona Carnes, Mrs. Oak McKenzie, Mrs. G. L. Lee, J. D. Martin, H. E. Randolph, M. M. Erskine and Rev. R. L. Brown. After a short talk by Mrs. Brown, the Mother Advisor, Miss Lalla Dean Randolph, the newly installed worthy advisor called the program of the evening, every number of which was a gem and thoroughly enjoyed by all present. The program follows: Instrumental solo, Jane Reynolds; Reading, Miss Louise Martin; Vocal Duets, Misses Mary Beth and Katherine Mitchell, with Miss Beaumont as accompanist; Piano Solo, Miss Wava Martin; Reading, Miss Ralphanna Searcy. At the close of the program, the Rainbow Girls and their visiting friends enjoyed a social half hour with delicious refreshments served in the banquet hall on the ground floor of the Masonic Temple.

BRYAN MUSIC STUDY CLUB SIGNS CONTRACT FOR REAL ARTIST HERE

Perhaps the best indication of the trend of thought in an organization is found in their efforts to serve others. This being granted the Bryan Music Study Club has been one of striking endeavor. Realizing the value of good music to a community and believing it impossible to cultivate an appreciation of good music without hearing it, they have planned for this year as their contribution to the community the bringing of a real artist to Bryan, and today the Bryan Music Study Club signed the contract for the booking of Miss Cecil Arden of the Metropolitan Opera Company to appear in Bryan Friday, October 31st at the Palace Theatre. Miss Arden is a young American artist. She is the possessor of a brilliant Mezzo-Soprano. Her second re-engagement at the Metropolitan Opera Co., for the third season speaks for itself of her artistic value. It is said her voice is full clear, sweet flexible and she is the possessor of the most-to-be-desired attributes—youth and charm.

BAPTIST CHURCH AT COLLEGE HAS GREAT DAY LAST SUNDAY

The Baptist church of College Station had by far its greatest day on Sunday. Almost 200 were enrolled in Sunday school, according to Rev. R. L. Brown. A children's department was organized with 21 present at the first meeting. The freshmen made the best showing with 98 present. A large crowd attended the B. Y. P. U. and preaching services at the close of which 35 united with the church. It is interesting to note that more joined the church the first night than united with us all last year. We are expecting a great program this year.

CHARLEY BOBO TAKEN TO BRYAN HOSPITAL FOR AN OPERATION—APPENDICITIS

Charley Bobo, formerly of Tabor, but late of Hico, Texas, was taken to the Bryan Hospital for an operation for appendicitis. Mr. and Mrs. Bobo and children are visiting her people, the McCallums of Tabor, for the past few weeks and Mr. Bobo has been working in the McCallum gin at Tabor. Mr. Bobo taught the Tabor high school for two or three years and will teach this coming winter at Buffalo Gap.

FUNERAL SERVICE FOR R. M. NALL WAS HELD ON THURSDAY

The funeral service for R. M. Nall, whose death occurred at his home in this city Wednesday morning, was held at 4 o'clock Thursday from his late residence. Great crowds of friends and acquaintances gathered at the appointed hour to pay a last tribute of love and respect to a man who has left his imprint for good upon the world and passed to his eternal rest, honored and revered by all who knew him.

Dr. John A. Held, pastor of the First Baptist church of Bryan, of which deceased had been a consistent member for thirty-five years, conducted impressive and beautiful service. After the reading of the scripture lesson by Dr. Held, a choir of selected voices rendered "Jesus Lover of My Soul," and later, the hymn, "Will There Be Any Stars in My Crown," a favorite of Mr. Nall's throughout all his life, was beautifully sung by Mrs. George A. Adams and Mrs. H. O. Boatwright accompanying on the piano. After a brief sketch of the life of deceased, and expressions of appreciation of one who had lived a life of usefulness and helpfulness to all around him, the pastor prayer the closing prayer. As the casket was being removed from the home, the choir sang "Nearer My God To Thee." The services were concluded at the grave. Mounds of exquisite flowers, gifts of love and sympathy from friends in this city and over the state, covered the new made grave, and bespoke the high esteem in which deceased was held by hosts of friends and loved ones.

The pall bearers were—Active: W. C. Boyett, John M. Lawrence, J. M. Ferguson, Jim James, J. W. Batts, and A. W. Buchanan; honorary: Sam Cavitt, M. W. Sims, H. P. Damsby, T. C. Nunn, Walter Wiprecht, T. A. Adams, Curt Oliver, Frank Zwick, C. E. Jenkins, A. J. Buchanan, Dr. W. H. Oliver, Rev. Leonard Post, Joe Groginsky, C. E. Jones, J. D. Conlee, J. W. Hamilton, George A. Adams, Jno. A. Moore, J. D. Jones, M. E. Wallace, M. G. Buchanan, and B. P. Smith.

PYTHIANS WORKING RAISE QUOTA FOR GIRLS' DORMITORY

There is a campaign on foot over the State of Texas for funds to build a girls' dormitory at the Knights of Pythias Home at Weatherford. This extra dormitory is very badly needed—so badly that one of the little girl orphan inmates has pledged the \$34 in the bank which is her savings and sole property. The Pythians of Bryan have set as their quota \$2,000 and are working to raise this sum or the greatest possible part of it. The following committee has been named: George A. Adams, F. L. Henderson, Oak McKenzie, W. O. Sanders and Robert Kellner. They have conducted solicitations at various times but the drive is not yet over and during the next two weeks is to be put on with added enthusiasm. Not only Pythians are urged to give at least one dollar per member but all people, whether affiliated with this lodge or not, if a friend to children of unfortunate parents, are given an invitation to donate to a worthy cause.

INJUNCTION SUIT AGAINST HOLDING SCHOOL ELECTION LOST IN DISTRICT COURT

The injunction suit brought in district court by parties of the Millican district against the holding of an election to vote bonds for the purpose of building new buildings, and employing additional teachers in that district, lost today in district court, according to information from the office of County Attorney Oak McKenzie. The defense for conducted by F. L. Henderson and Armstrong & Armstrong. Attorneys for the plaintiff, Judge W. S. Dean of Navasota and W. S. Barron of Bryan, have given notice of appeal.

ANOTHER PROGRESSIVE STEP BEING URGED BY LIONS CLUB OF BRYAN

During the course of the meeting of the Lions Club of Bryan at the basement of the Episcopal parish today, Tom Suber brought up for discussion a very important matter to everyone concerned—which includes about every motorist in the county. He called attention to how the people park on the streets and the inconvenience to other motorists on busy days, especially Saturdays. He urged that a committee be appointed to go before the city commission and city manager to see if something could not be done to secure legislation on this subject or some action that would tend not only to park more cars in less space but also to aid in decreasing the number of accidents when one car backs out from where it is parked. He suggested that lines be laid out on the pavement from the curbing into the street to designate where cars should be parked. Securing a second to the motion, Dr. Searcy put it to a vote and receiving an affirmative, appointed on the committee: M. M. Erskine, W. W. Chambers and Roy Nunn.

After the splendid luncheon which was set before the Lions, had been fully taken care of, President C. A. Searcy introduced a new visitor, a Lion, E. V. Spence, who is a graduate from A. and M. College, having attended there from 1907 to 1911, and who is now returning for a post-graduate course. He said that Bryan and College were like home to him and he wished to have his membership in the Lions transferred to Bryan.

W. W. Chambers was in charge of the program today and the meeting was then turned over to him. He introduced Miss Alma Robinson and Mrs. Roy Danforth for the musical part of the program. Miss Robinson sang, "His Lullaby" by Carrie Jacobs Bond and "Dreamy Melody," the latter as an encore. Mrs. Danforth accompanying. Both numbers were well rendered and received much applause. The program leader then called upon Dr. Searcy to call each Lion present by their proper names as Lions, which he proceeded to do to the delight of all present when he stumbled and hesitated over one or two.

Gasoline vs. Soda Water. M. M. Erskine had delivered quite an oration on absent Lions being dead ones, in honor of W. W. Chambers who has been absent two or three times when named as leader for the program. Then Pat Newton had to substitute for Lion Armstrong and he read a fine paper on "Object of Lionism." M. M. Erskine was asked to tell of his gasoline connections as a brief classification talk in the absence of J. W. Hall slated for that subject. Erskine said he was stressing the soda-pop business now as he wanted to take up his work step by step from the beginning.

After a rising vote of thanks had been taken for the musical numbers and in person to Mrs. Danforth and Miss Robinson, and after an expression of the Club's appreciation of the service being rendered by the Guild in serving such splendid fine service, Dr. Searcy announced that Jess Cook would be leader next week and Jess Hensarling would give the classification talk.

CONTRIBUTIONS ARE COMING IN SLOWLY TO CAMPAIGN FUND

"I noticed in the paper that you have been appointed chairman for the voting precinct in which we live to collect campaign contributions for the Democratic presidential campaign. I am enclosing check for my usual contribution to the presidential campaign. Hoping that you may have good success," etc., is the text of a letter from W. W. Wiprecht to Mrs. W. S. Howell, chairman of the court house precinct for the drive for the campaign funds for Davis and Bryan, enclosing a check for \$10. "This is the spirit that will put this drive over," said County Chairman Mrs. Lee J. Rountree. "He did not wait to be solicited but realized that the time of the chairman would be full and sent in his contribution to the cause of democracy, unsolicited. Other contributions are being received, but not in the number desired. It is up to the people to support the party in a tangible way if tangible results are to be secured. Talk of party loyalty is useless without adequate party support. There's many others to be heard from."

NEW BUNGALOW BEING ERECTED AT UNION HILL FOR DR. R. B. EHLINGER

Just east of the Country Club on the 40 acres which Dr. R. B. Ehlinger has owned for the past three years, he is constructing a second bungalow, the one now there and owned by him being rented. Dr. Ehlinger plans to live in the one which was begun Friday of last week. It is to be a five-room bungalow.

BRYAN STUDENTS WHO HAVE GONE AWAY TO ENROLL IN COLLEGES

The week just closed has taken many of Bryan's girls and boys away to school, and the busy season of study and application has come again after a pleasant vacation. A partial list of those who have entered school for the 1924-25 term, from Bryan, follows: Miss Gene Edge, Bryan College, Gainesville, Ga.; Ward Moore, Harvard University; W. H. Fuller, Princeton University; Miss Nanne Shel Waldrop, Miss Franchelle Roberts, Miss Josephine Eden, William Allen, to Southern Methodist University, Dallas; Miss Jane Oliver, Miss Elizabeth Cline, Sullins College, Bristol, Va.; Miss Louise Cline will be a teacher at Sullins College, Virginia; George B. Butler, Jr., Ray Jones, Baylor University, Waco; Miss Patti Sims, Miss Olaf Asin, Miss Gertrude Sims, Miss Elaine Bizzell, Sanford Gibbs, State University, Austin; Miss Helen Held, Burleson College, Greenville; Miss Katherine Higgs, Miss Louise Pipkin, Miss Merle Minkert, Miss Mary Lillie Fountain, Baylor College, Belton; Miss Pearl Wallace, Kidd-Key College, Sherman; Miss Helen Kerr Parks, Miss Kate Hall of Steep Hollow, Miss Josephine Crute, Miss Elizabeth Adkins of Wellborn, Miss Sue Mae Sanders, Miss Annie Vanderwerth, College of Industrial Arts, Denton; Miss Estelle Caldwell, Gaudalett College, Washington, D. C.; Frank Higgs of Bryan and Emma Linz of Kurten to the Texas School for the Deaf at Austin; Miss Priscilla Sims, Sophia Newcomb College, New Orleans; Miss Aline Smith, Miss Texas Orms, Miss Evelyn Crawford, Miss Esther McCulloch, Miss Alta Edge, Miss Myrtle Dillard, Miss Malcolm McInnis, M. E. Wallace, Jr., J. D. Martin, Jr., Miss Lily Bess Kyle, Joe T. Maloney, Jr., William Armstrong, Mit Dansby, Norman Dansby, Jimmie Bunting, Bill Bethea, Bill Oliver, Allister Waldrop, Emory Franklin, A. and M. College of Texas.

While the above list is not complete, it is evidence that the young people of Bryan are seeking for higher education, and thereby preparing themselves for the great work that lies out so invitingly before the men and women of the future. Bryan is proud of this fact, and the best wishes of the people of this city are with every student in the list as given above and all others whose names may be added it in the coming days.

JONES-SCHWARTZ WED

On Saturday night at 8 o'clock at the Christian parsonage, Rev. L. Guy Ament officiating, Mrs. Maurine Schwartz and W. T. Jones were quietly married in the presence of a few friends who had been let into the secret. Immediately after the ceremony the happy couple left for a short wedding trip, returning to Bryan today. Mr. Jones holds a position with the Texas Oil Company and Mrs. Jones is employed at the Sam B. Wilson Woman's Department Store, and both have many friends who are today extending congratulations and best wishes.

Weak Nervous

"I was weak and nervous and run-down," writes Mrs. Edith Sellers, of 406 N. 21st St., East St. Louis, Ill. "I could not sleep nights, I was so restless. I felt tired and not in condition to do my work. I would have such pains in my stomach that I was afraid I would get down in bed. My mother came to see me and suggested that I use

CARDUI

The Woman's Tonic

I felt better after my first bottle. I had a better appetite. It seemed to strengthen and build me up. I am so glad to recommend Cardui for what it did for me. I haven't needed any medicine since I took Cardui, and I am feeling fine."

Nervousness, restlessness, sleeplessness—these symptoms so often are the result of a weak, run-down condition, and may develop more seriously if not treated in time.

If you are nervous and run-down, or suffering from some womanly weakness, take Cardui.

TABOR TIDBITS

(Special to Bryan Daily Eagle.)
TABOR, Sept. 25.—We have had no news from Tabor for the last two or three weeks. We have all been busy gathering our crops and most of the people are about through. Our crops were short and we have had fine weather for gathering until the last week or two. I think, though, everybody was glad to see the rain after such a long dry spell.

Vacation is over and school time is here and a number of our young people have gone away to their schools. Misses Edna Harris and Susie Benbow are again in the Bryan West Side School and have been teaching for about two weeks. Miss Louise Blanton left last week for Houston where she will attend school. Miss Bertha Walker left for Huntsville and Miss Winnie Harris went to Austin to enter State University. We will miss them but our very best wishes go with every one.

Tabor high school will begin next Monday. We hope to have good attendance from the first and successful school throughout the year. The teachers are: Principal W. G. Colson, Mrs. W. G. Colson, Miss Hattie Francis, Mrs. J. T. Closs, Jr., Miss Ruby Walker, and Miss Hazel Bacon, music teacher.

Rev. R. L. Brown filled his regular appointment at Cottonwood on Sunday morning. We were glad to see Mrs. Brown with him after such a long absence on account of sickness. They had with them Mrs. Brown's sister from North Carolina who is visiting them.

Miss Una Edge of Bryan spent last week-end in our community.

Mr. and Mrs. J. M. Closs and children visited relatives at Wheelock on Sunday.

KURTEN KLIPPINGS

(Special to Bryan Daily Eagle.)
KURTEN, Sept. 25.—The long drought was broken by several good rains, which also gave some water for stock. The women are all busy in their fall gardens.

Misses Winnie and Rosa Mae Bukowski have gone to visit their aunt at Benchley.

The Evangelical young people's society will meet Sunday night, September 28, and everybody is invited to come. They will meet in the Evangelical church. The officers and members are as follows: Adolph Conrad, president; Emanuel Kaskie, vice president; Miss Mary Lou Pringle, secretary; Miss Pauline Huff, treasurer; Freddie and Rudolph Kindt, Otto Kindt, Gus Schultz, Willie Schultz, Otto Schultz, Gus Eyer, Henry Endler, Fritz Endler, Jr., Chas. Gerke, Jr., Fritz Wiser, Henry Rahner, John Manthei, Arnold Steiner, Tado Plagens, Ernest Smet, Miss Ella Plagens, Alma Kindt, Gussie Endler, Minnie Endler, Emily Hattie Rahner, May Conrad, Selma K. Henriette Schultz, Hilda Schmidt, Hattie Harnart, May Conrad, Selma Kindt, Martha Wiser, Clara Schultz, and Otto Keller. Robert Plagens, Walter Plagens and Mate Plagens.

Our school will open October 6, it being late on account of being so slow with our school building. Our teachers are: Mr. and Mrs. J. L. Huff, Mrs. Leslie Hearne, and Mrs. Maggie Kelley.

Our fair was put off until the new school building is finished.

We are sorry to report that Mr. and Mrs. T. L. Tobias will leave our community to go to Robstown. Everybody in our community will surely miss them because they were among the best workers in our community. We are hoping for a successful crop in Nueces county.

Herman Kindt is busy hauling lumber for their new house on their new place.

The relatives and friends celebrated Mrs. R. Franze's birthday last Sunday.

J. Brooks Stevenson went to the Brazos Bottom today on business for his machine shop.

STEEP HOLLOW STORIES

(Special to Bryan Daily Eagle.)
STEEP HOLLOW, Sept. 24.—Everybody is rejoicing over the nice rain which we have been blessed with. Miss Mattie Moore has returned from Edge.

Little W. R. Johnson of Bryan spent the week-end in the home of J. W. Mathis.

Mr. and Mrs. Marion Hartsfield and family of Bryan spent Sunday with Mr. and Mrs. Elmer Bullock.

Lee Hopkins motored to Iola on Sunday.

Mr. and Mrs. Robert Jones and Mr. and Mrs. T. W. Dehart and family and Mr. and Mrs. Sam Bullock of Bryan attended church Sunday.

John and Vera Smith and Myrtle Bullock spent Sunday with Mr. and Mrs. Thurman Smith.

EDGE EPIGRAMS

(Special to Bryan Daily Eagle.)
EDGE, Sept. 24.—School opened Monday, September 22, with the following teachers: P. S. Mangum, principal; Miss Bertie Risner and Mrs. P. S. Mangum, teachers.

Messrs. S. P. Ballard, Claud and Ernest Moore attend the funeral of their uncle, J. W. Moore of College Station, interment at Bryan cemetery, Sunday, September 21, 9 a. m.

W. C. Hill and family spent Sunday with Mr. and Mrs. Reagan Winn at Wheelock.

Miss Rachael Cabiness visited relatives in Bryan Wednesday.

Mrs. H. T. Wheelless and son, Henry, motored out from Bryan Sunday to visit relatives here.

The Ladies Club met Wednesday and gave Mrs. C. B. Moore a surprise shower. Miss Laura B. Roten explained to the ladies that on account of the nature of Mrs. Moore's late illness, they were denied the privilege of visiting her, and to show their love and sympathy they had decided to give a shower of clothing.

Mr. and Mrs. E. J. Payne have moved into their new home.

Miss Mattie Moore of Steep Hollow visited relatives here last week.

Misses Pauline Thompson and Fannie Brown were guests at Mr. and Mrs. Thompson's Saturday night and Sunday.

Rev. House of Wheelock filled his regular appointment here Sunday.

MARRIAGE LICENSES FOR BRAZOS COUNTY

The following is a list of the marriage licenses issued since the last previous publication of last week, according to the official records of County Clerk A. S. McSwain: Allen Carson and Vera Halbrooks; Nelson Campbell, Sr., and Rosa Debose; G. M. Hefflin and Minnie Ward; Jeanie Creamer and Nannie O. B. Flowers; D. J. Jones and Lillie Kemp; David Bell and Gladys Scott; Charley Lewis and Lucille Jenkins; W. M. Copeland and Adelle Jenkins; W. T. Jones and Maurine Schwartz; Tom Davison and Lela Smith.

CRIMINAL DOCKET IS SET FOR THIRD AND FOURTH WEEKS COURT

After working for two days on the setting of the criminal docket for the third and fourth weeks, district court completed the work shortly before noon Tuesday and the following is a list of the cases and the day for which set, together with a brief description of what the case is about, according to information furnished by the court stenographer, Z. O. McDonald:

Third Week Settings.

Monday, Sept. 29, State of Texas vs. Albert Scott, unlawful transportation of intoxicating liquor.

Monday, Sept. 29, State of Texas vs. Willie Sloan, felony, theft.

Tuesday, Sept. 30, State of Texas vs. W. L. Price, swindling.

Wednesday, Oct. 1, State of Texas vs. Dave and Avery Greer, manufacturing of spirituous liquors capable of producing intoxication.

Wednesday, Oct. 1, State of Texas vs. Avery Greer, unlawful sale of spirituous liquors capable of producing intoxication.

Thursday, Oct. 2, State of Texas vs. Charley Palermo, unlawful sale of a potable liquid mixture containing more than 1 per cent of alcohol by volume.

Thursday, Oct. 2, State of Texas vs. Charley Palermo, same as above.

Friday, Oct. 3, State of Texas vs. Monroe Roberson, murder; venire of 50 men ordered returnable October 1st.

Settings for Fourth Week.

Monday, Oct. 6, State of Texas vs. Peter Zukoski, unlawful possession of spirituous liquors for the purpose of sale, capable of producing intoxication.

Monday, Oct. 6, State of Texas vs. Toney Woodyard, unlawful sale of a liquid potable mixture containing in excess of 1 per cent of alcohol by volume.

Monday, Oct. 7, some as first above.

Tuesday, Oct. 7, State of Texas vs. J. L. Wheelless, embezzlement.

Tuesday, Oct. 7, State of Texas vs. John Woodyard, unlawful sale of a liquid potable mixture containing in excess of 1 per cent of alcohol by volume.

Tuesday, Oct. 7, same as first above.

Wednesday, Oct. 8, State of Texas vs. R. G. Turner, murder. Venire of 75 men ordered and returnable October 6.

Friday, Oct. 10, State of Texas vs. Julius Hernandez, murder. Venire of 50 men ordered returnable October 8.

Friday, Oct. 10, State of Texas vs. Julius Hernandez, incest.

Miss Mildred Horton, state home demonstration agent, will have charge of the judging of the entries at the Tabor community fair on Friday, September 26th.

BENCHLEY BUDGET.

(Special to Bryan Daily Eagle.)
BENCHLEY, Sept. 24.—The drought was broken here Sunday by a fine rain, which the farmers appreciated very much.

Mr. and Mrs. Van Haltom and son, Donnell, of Bryan, spent Sunday in Benchley.

Will Haltom and family have moved to Calvert since our last report. Bill Peyton and family of Sutton spent Sunday in the W. H. Peyton home.

Mrs. J. E. Cameron and children of Tabor were pleasant callers at the home of J. C. Peyton and wife.

Mr. Castalla of Navasota has moved to Benchley, where he is section foreman for the railroad. His family will arrive in a few days. We welcome them in our neighborhood.

Jesse Peyton has returned from Groesbeck, where he has been stationed the last months as section foreman.

Herbert Doerge, who is attending school in Navasota, spent the week-end with his parents, A. D. Doerge and family.

Glenn Bowman and family of Bryan spent Sunday here.

BEASON ADDITION TO BRYAN PUT ON BLUE PRINT BY DRAFTSMAN

The Beason Addition to the City of Bryan has been mapped on a blueprint and laid off into lots. It looks like a very pretty plot on the print, which was drawn by S. W. Mims, a student in the senior class at A. and M. College. It is bounded on the west by the I-G. N. tracks; on the east by College Road; on the north by the Kazeimer Hatchery, and on the south by Haswell street, named in honor of Mayor Tyler Haswell of Bryan. In the plot have been laid off several special plots. One of them is 2 acres in extent and has been given to the City of Bryan, together with the streets of the addition. This gift is made for the purpose of someday using it as a school site when the city has grown in that direction sufficiently to warrant a building there. Another plot laid off is for a park, and still a third for a lake. C. L. Beason, our county agent, is the owner, and plans to make the improvements on the lake and park himself. Some of the lots have already been sold and construction work on buildings is to begin in a short time. Bryan is moving—not to College—but toward College, and at the present rate it will be but a short time until College and Bryan are as one city.

BRAZOS PIONEER IS LAID FINAL REST

The funeral of Judge W. H. Moore whose death occurred on Saturday afternoon at the home of his daughter, Mrs. L. H. Wilson, near College Station, was held Sunday morning at 9 o'clock. The impressive and beautiful service at the home was conducted by Rev. H. C. Willis, pastor of the First Methodist church of Bryan. Many friends from Bryan as well as College Station, who have known and loved deceased for many long years were present, to pay the last tribute of respect to one of Brazos county's staunchest and most valued citizens. The funeral procession left the home at 9:30 a. m. and came to the Bryan cemetery, where interment was made.

Judge W. J. Moore was a native of Virginia, and was truly a type of the old time southern gentleman, a class which is fast disappearing. He entered the service of the Confederate Army from that state, was a member of Company I, 14th Virginia Cavalry, and served under General Stonewall Jackson. He took part in nearly all the battles fought in the Virginia campaign, a number of which took place near his old home.

He came to Texas soon after the close of the war and settled near the A. and M. College, and has lived in Brazos county for fifty years. He was a prosperous farmer, and also served as Justice of the Peace of the College precinct for twenty years. By his life of upright honesty and high moral character, Judge Moore was honored by all who knew him during his long and useful life. Gentle, kind, neighborly, and scrupulously honest in all his business affairs, he was successful and at all times a prominent factor in the public affairs of his county and state.

About two years ago, when old age and disease enfeebled him, he moved to the home of his only child, Mrs. L. H. Wilson, where he and his devoted wife, spent the twilight days of their life, quietly and peacefully together, surrounded by the family of those they loved.

The following friends acted as pall bearers at the funeral: F. E. Lichte, L. E. Dowd, Charles Gorzycki, J. P. Ayers, Claud Dixon and Roy M. Wilson.

CAR REGISTRATIONS FOR BRAZOS COUNTY

The following is a list of the registrations of new cars since the last previous publication, according to the official records of County Tax Collector Roy Hudspeth: American Steam Laundry, Bryan; W. L. Luther, Bryan; Geo. Turner, Bryan; H. A. Foster, Bryan; J. A. Clutter, College Station; Hicks Rubber Company, Waco; Villa Maria Academy, Bryan; Tom Field, Calvert; W. C. Weir, Itaska; A. L. Higgs, Benchley; Frank Degelia, Steele's Store; Col. and Jones, Bryan; C. C. Thomas, North Zulch; S. O. Narcross, Bryan; Harris T. Allen, Dallas; C. E. Griesner, Bryan; Will McCrear, Bryan; Mrs. B. D. Chymley, College Station; John Stabler, Bryan; Peter Tremont, Bryan.

D. L. Wilson has returned from a week-end visit to Cameron.

BRAZOS COUNTY BOYS AND GIRLS CLUB DEPARTMENT

Club Notes and Farm News by County Agent C. L. Beason

In Placement Training.

Many of the Federal students taking training at the A. and M. College of Texas go into placement training here in Brazos county, taking for their projects poultry, truck and general farming. Among some of the recent students to begin project work are: Theodore Plagens, Kurlen, Barred Rocks and general farming; Albert J. Opersteyn, Bryan, Rhode Island Reds and general farming; J. M. Clary and J. R. Patton, Bryan, Barred Rocks and general farming. Plagens will be located in the Fickey neighborhood on his father's plantation; Clary, Patton and Opersteyn will be on the Dobrovodney place on the Leonard road south of Bryan.

Value of Fall Plowing.

Many farmers in Brazos county are taking advantage of the recent rains by starting their plows, which breaking land or sowing small grain for fall and winter grazing, and which will also serve as cover crop, checking soil washing. C. S. Jones, prominent farmer-stockman of Bryan, states that he has two seeders putting out oats for fall and winter pasture. These are one-horse seeders with six drills, sowing an entire cotton middle at each through, thus making it possible to cover a large area with one hand and one team, or horse. With the future scarcity of feed starting us in the face as a great handicap to farming next year, it would seem wise to plant at least a few acres of oats on good land in order that some early feed might be had next spring. J. Seth Mooring of Steele's Store states that he has three tractors running breaking land from which corn has just been gathered, and that the work being done is so fine that one can scarcely tell what the land has been planted to this year. There are those who yet claim that fall plowing is not advantageous to crop production, yet W. E. Graham of Rock Prairie pointed out to us that land which was producing right at a bale last year had been flat broke the fall before. Elzie Francis of Tabor states that the land which he flat broke in the fall made a half-bale, while that prepared in the spring in the usual way made only a third of a bale. Of course the suggestion should not apply to sandy land on which there is no green vegetation to turn under, or on which there is not to be some cover crop. The crying need of our soil in Brazos county is humus, and this will continue to be so until we check soil erosion, stop the waste of barn manure, and adopt some method by which vegetation may be turned under to improve the physical condition of the soil, it matters not whether it be sandy or otherwise.

Environments Determine Value.

Some recent real estate deals in this county should serve to show our people the value of a community noted for its progress and friendly spirit. When farm lands, with no improvements except fences, sell for \$50 to \$65 per acre, when other land equally as fertile and less distant from market could be purchased at half the price, one must conclude that there is something in the place, or environment, to cause the difference. Several years ago the people of the Tabor community organized the Tabor Welfare Club for the purpose of social, moral, educational and economic betterment with the result that their schools have prospered and grown as never before, more good farm homes have been built and repaired than, perhaps, in any other community, and a buyer is always ready for any land that may be offered for sale, recently one 300-acre farm selling, it is reported, for \$15,000 spot cash, and another selling for almost an equal sum. Perhaps the Tabor Welfare Club has not always followed as definitely a program of community work as it might have done, but their meetings from time to time have helped to create a fellowship, not only binding the people together but also causing them to love their community dearly. They have built better than they knew in that which we call "community religion."

'Possum, and Taters.

Miss Mary Locke of Tabor is authority for the story of an old negro woman, who, upon viewing the poor prospects for corn this year, said that she had "just washed her meal sack and put it in her quilt." Perhaps the recent rains will improve

hold down a job to earn a livelihood. I could neither eat or sleep to do any good, was having chills every other day, and felt as tired in the mornings as if I had put in a full day's work.

"In fact, I just seemed to be in the grip of bad health and could see no way out. I couldn't eat a thing but sweet milk and corn bread. The best thing I ever did was when I started taking Tanlac. The results I got from it can all be told in two words—good health.

"Tanlac soon had me eating everything, sleeping like a log at night, and able to put in a full day's work the same as if I had never been sick. I also gained ten pounds and while this was back in 1920 my health is still good. Tanlac gets all the credit for putting me on my feet."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Tanlac Vegetable Pills, for constipation, made and recommended by the manufacturers of Tanlac.—Adv.

BAPTIST CHURCH AT STEEP HOLLOW BEEN GROWING RAPIDLY

Rev. J. J. Pipkin, associational missionary for Brazos Baptist Association, held services at Steep Hollow Baptist church Sunday. Rev. Pipkin has been conducting services at this church regularly since the pastor, Rev. J. M. Bullock, was stricken with paralysis early this year. The work done in this connection by Rev. Pipkin is a part of his work as associational missionary—that of looking after churches which are without a regular pastor.

Since Rev. Bullock has been unable to fill his regular appointment at this church, the members have continued to pay his salary regularly and cheerfully. This is a splendid spirit for a church to possess, and indicates the love and esteem in which Rev. Bullock is held.

The Sunday school of this church is growing and improving under the successful leadership of Claude Thompson. The attendance at this service is practically one hundred percent of the Baptist young people in the community with a good per cent of the grown-ups.

TABOR TIDBITS

(Special to Bryan Daily Eagle)
TABOR, Sept. 25.—We have had no news from Tabor for the last two or three weeks. We have all been busy gathering our crops and most of the people are about through. Our crops were short and we have had fine weather for gathering until the last week or two. I think, though, everybody was glad to see the rain after such a long dry spell.

Vacation is over and school time is here and a number of our young people have gone away to their schools. Misses Edna Harris and Susie Benbow are again in the Bryan West Side School and have been teaching for about two weeks. Miss Louise Blanton left last week for Houston where she will attend school. Miss Bertha Walker left for Huntsville and Miss Winnie Harris went to Austin to enter State University. We will miss them but our very best wishes go with every one.

Tabor high school will begin next Monday. We hope to have good attendance from the first and successful school throughout the year. The teachers are: Principal W. G. Colson, Mrs. W. G. Colson, Miss Hattie Francis, Mrs. J. T. Closs, Jr., Miss Ruby Walker, and Miss Hazel Bacon, music teacher.

Rev. R. L. Brown filled his regular appointment at Cottonwood on Sunday morning. We were glad to see Mrs. Brown with him after such a long absence on account of sickness. They had with them Mrs. Brown's sister from North Carolina who is visiting them.

Miss Una Edge of Bryan spent last week-end in our community.

Mr. and Mrs. J. M. Closs and children visited relatives at Wheelock on Sunday.

KURTEN KLIPPINGS

(Special to Bryan Daily Eagle)
KURTEN, Sept. 25.—The long drought was broken by several good rains, which also gave some water for stock. The women are all busy in their fall gardens.

Misses Winnie and Rosa Mae Bukowski have gone to visit their aunt at Benchley.

The Evangelical young people's society will meet Sunday night, September 28, and everybody is invited to come. They will meet in the Evangelical church. The officers and members are as follows: Adolph Conrad, president; Emanuel Kasiske, vice president; Miss Mary Lou Prinz, secretary; Miss Pauline Huff, treasurer; Freddie and Rudolph Kindt, Otto Kindt, Gus Schultz, Willie Schultz, Otto Schultz, Gus Byer, Henry Endler, Philip Endler, Jr., Chas. Gerke, Jr., Fritz Wiser, Henry Rahner, John Manthei, Arnold Steiner, Tado Plagens, Ernest Smit, Misses Ella Plagens, Alma Kindt, Gussie Endler, Minnie Endler, Emily Hattie Rahner, May Conrad, Selma Ke, Henriette Schultz, Hilda Schmidt, Hattie Harnart, May Conrad, Selma Kindt, Martha Wiser, Clara Schultz, and Otto Keller, Willie Humberger, Robert Lang, Robert Plagens, Walter Plagens and Mate Plagens.

Our school will open October 6, it being late on account of being so slow with our school building. Our teachers are: Mr. and Mrs. J. L. Hurff, Mrs. Leslie Hearn, and Mrs. Maggie Kelley.

Our fair was put off until the new school building is finished.

We are sorry to report that Mr. and Mrs. T. L. Tobias will leave our community to go to Robstown. Everybody in our community will surely miss them because they were among the best workers in our community. We are hoping for a successful crop in Nueces county.

Herman Kindt is busy hauling lumber for their new house on their new place.

The relatives and friends celebrated Mrs. R. Franz's birthday last Sunday.

J. Brooks Stevenson went to the Brazos Bottom today on business for his machine shop.

STEEP HOLLOW STORIES

(Special to Bryan Daily Eagle)
STEEP HOLLOW, Sept. 24.—Everybody is rejoicing over the nice rain which we have been blessed with. Miss Mattie Moore has returned from Edge.

Little W. R. Johnson of Bryan spent the week-end in the home of J. W. Mathis.

Mr. and Mrs. Marion Hartsfield and family of Bryan spent Sunday with Mr. and Mrs. Elmer Bullock.

Lee Hopkins motored to Iowa on Sunday.

Mr. and Mrs. Robert Jones and Mr. and Mrs. T. W. Dehart and family and Mr. and Mrs. Sam Bullock of Bryan attended church Sunday.

John and Vera Smith and Myrtle Bullock spent Sunday with Mr. and Mrs. Thurman Smith.

EDGE EPIGRAMS

(Special to Bryan Daily Eagle)
EDGE, Sept. 24.—School opened Monday, September 22, with the following teachers: P. S. Mangum, principal; Miss Bertie Risinger and Mrs. P. S. Mangum, teachers.

Messrs. S. P. Ballard, Claud and Ernest Moore attend the funeral of their uncle, J. W. Moore of College Station, interment at Bryan cemetery, Sunday, September 21, 9 a. m.

W. C. Hill and family spent Sunday with Mr. and Mrs. Reagan Winn at Wheelock.

Miss Rachael Cabiness visited relatives in Bryan Wednesday.

Mrs. H. T. Wheeler and son, Henry, motored out from Bryan Sunday to visit relatives here.

The Ladies Club met Wednesday and gave Mrs. C. B. Moore a surprise shower. Miss Laura B. Roten explained to the ladies that on account of the nature of Mrs. Moore's late illness, they were denied the privilege of visiting her, and to show their love and sympathy they had decided to give a shower of clothing.

Mr. and Mrs. E. J. Payne have moved into their new home.

Miss Mattie Moore of Steep Hollow visited relatives here last week.

Misses Pauline Thompson and Fannie Brown were guests at Mr. and Mrs. Thompson's Saturday night and Sunday.

Rev. House of Wheelock filled his regular appointment here Sunday.

MARRIAGE LICENSES FOR BRAZOS COUNTY

The following is a list of the marriage licenses issued since the last previous publication of last week, according to the official records of County Clerk A. S. McSwain: Allen Carson and Vera Halbrook; Nelson Campbell, Sr., and Rosa Debose; G. M. Hefflin and Minnie Ward; Jeanie Creamer and Nannie O. B. Flowers; D. J. Jones and Lillie Kemp; David Bell and Gladys Scott; Charley Lewis and Lucile Banner; W. M. Copeland and Adelle Jenkins; W. T. Jones and Maurine Schwartz; Tom Davison and Lela Smith.

CRIMINAL DOCKET IS SET FOR THIRD AND FOURTH WEEKS COURT

After working for two days on the setting of the criminal docket for the third and fourth weeks, district court completed the work shortly before noon Tuesday and the following is a list of the cases and the day for which set, together with a brief description of what the case is about, according to information furnished by the court stenographer, Z. O. McDonald:

Third Week Settings.

Monday, Sept. 29, State of Texas vs. Albert Scott, unlawful transportation of intoxicating liquor.

Monday, Sept. 29, State of Texas vs. Willie Sloan, felony, theft.

Tuesday, Sept. 30, State of Texas vs. W. L. Price, swindling.

Wednesday, Oct. 1, State of Texas vs. Dave and Avery Greer, manufacturing of spirituous liquors capable of producing intoxication.

Wednesday, Oct. 1, State of Texas vs. Avery Greer, unlawful sale of spirituous liquors capable of producing intoxication.

Thursday, Oct. 2, State of Texas vs. Charley Palermo, unlawful sale of a potable liquid mixture containing more than 1 per cent of alcohol by volume.

Thursday, Oct. 2, State of Texas vs. Charley Palermo, same as above.

Friday, Oct. 3, State of Texas vs. Monroe Roberson, murder; venire of 50 men ordered returnable October 1st.

Settings for Fourth Week.

Monday, Oct. 6, State of Texas vs. Peter Zulkoski, unlawful possession of spirituous liquors for the purpose of sale, capable of producing intoxication.

Monday, Oct. 6, State of Texas vs. Toney Woodard, unlawful sale of a liquid potable mixture containing in excess of 1 per cent of alcohol by volume.

Monday, Oct. 7, some as first above.

Tuesday, Oct. 7, State of Texas vs. J. L. Wheelless, embezzlement.

Tuesday, Oct. 7, State of Texas vs. John Woodard, unlawful sale of a liquid potable mixture containing in excess of 1 per cent of alcohol by volume.

Tuesday, Oct. 7, same as first above.

Wednesday, Oct. 8, State of Texas vs. R. G. Turner, murder. Venire of 75 men ordered and returnable October 6.

Friday, Oct. 10, State of Texas vs. Julius Hernandez, murder. Venire of 50 men ordered returnable October 8.

Friday, Oct. 10, State of Texas vs. Julius Hernandez, incest.

Miss Mildred Horton, state home demonstration agent, will have charge of the judging of the entries at the Tabor community fair on Friday, September 26th.

BENCHLEY BUDGET.

(Special to Bryan Daily Eagle)
BENCHLEY, Sept. 24.—The drought was broken here Sunday by a fine rain, which the farmers appreciated very much.

Mr. and Mrs. Van Haltom and son, Donnell, of Bryan, spent Sunday in Benchley.

Will Haltom and family have moved to Calvert since our last report. Bill Peyton and family of Sutton spent Sunday in the W. H. Peyton home.

Mrs. J. E. Cameron and children of Tabor were pleasant callers at the home of J. C. Peyton and wife.

Mr. Castalla of Navasota has moved to Benchley, where he is section foreman for the railroad. His family will arrive in a few days. We welcome them in our neighborhood.

Jesse Peyton has returned from Groesbeck, where he has been stationed the last months as section foreman.

Herbert Doerge, who is attending school in Navasota, spent the week-end with his parents, A. D. Doerge and family.

Glenn Bowman and family of Bryan spent Sunday here.

BEASON ADDITION TO BRYAN PUT ON BLUE PRINT BY DRAFTSMAN

The Beason Addition to the City of Bryan has been mapped on a blue-print and laid off into lots. It looks like a very pretty plot on the print, which was drawn by S. W. Mims, a student in the senior class at A. and M. College. It is bounded on the west by the L-G-N. tracks; on the east by College Road; on the north by the Kamezler Hatchery; and on the south by Haswell street, named in honor of Mayor Tyler Haswell of Bryan. In the plot have been laid off several special plots. One of them is 2 acres in extent and has been given to the City of Bryan, together with the streets of the addition. This gift is made for the purpose of someday using it as a school site when the city has grown in that direction sufficiently to warrant a building there. Another plot laid off is for a park, and still a third for a lake. C. L. Beason, our county agent, is the owner, and plans to make the improvements on the lake and park himself. Some of the lots have already been sold and construction work on buildings is to begin in a short time. Bryan is moving—not to College—but toward College, and at the present rate it will be but a short time until College and Bryan are as one city.

BRAZOS PIONEER IS LAID FINAL REST

The funeral of Judge W. H. Moore whose death occurred on Saturday afternoon at the home of his daughter, Mrs. L. H. Wilson, near College Station, was held Sunday morning at 9 o'clock. The impressive and beautiful service at the home was conducted by Rev. H. C. Willis, pastor of the First Methodist church of Bryan. Many friends from Bryan as well as College Station, who have known and loved deceased for many long years were present, to pay the last tribute of respect to one of Brazos county's staunchest and most valued citizens. The funeral procession left the home at 9:30 a. m. and came to the Bryan cemetery, where interment was made.

Judge W. J. Moore was a native of Virginia, and was truly a type of the old time southern gentleman, a class which is fast disappearing. He entered the service of the Confederate Army from that state, was a member of Company I, 14th Virginia Cavalry, and served under General Stonewall Jackson. He took part in nearly all the battles fought in the Virginia campaign, a number of which took place near his old home.

He came to Texas soon after the close of the war and settled near the A. and M. College, and has lived in Brazos county for fifty years. He was a prosperous farmer, and also served as Justice of the Peace of the College precinct for twenty years. By his life of upright honesty and high moral character, Judge Moore was honored by all who knew him during his long and useful life. Gentle, kind, neighborly, and scrupulously honest in all his business affairs, he was successful and at all times a prominent factor in the public affairs of his county and state.

About two years ago, when old age and disease enfeebled him, he moved to the home of his only child, Mrs. L. H. Wilson, where he and his devoted wife, spent the twilight days of their life, quietly and peacefully together, surrounded by the family of those they loved.

The following friends acted as pall bearers at the funeral: F. E. Lichte, L. E. Dowd, Charles Gorzycke, J. F. Ayers, Claud Dixon and Roy M. Wilson.

CAR REGISTRATIONS FOR BRAZOS COUNTY

The following is a list of the registrations of new cars since the last previous publication, according to the official records of County Tax Collector Roy Hudspeeth: American Steam Laundry, Bryan; W. L. Luther, Bryan; Geo. Turner, Bryan; A. Foster, Bryan; J. A. Clutter, College Station; Hicks Rubber Company, Waco; Villa Maria Academy, Bryan; Tom Field, Calvert; W. C. Weir, Itasca; A. L. Higgs, Benchley; Frank Degelia, Steele's Store; Cole and Jones, Bryan; C. C. Thomas, North Zulch; S. O. Narcoos, Bryan; Harris T. Allen, Dallas; C. E. Grieser, Bryan; Will McCrear, Bryan; Mrs. B. D. Chymley, College Station; John Stabler, Bryan; Peter Tremont, Bryan.

D. L. Wilson has returned from a week-end visit to Cameron.

BRAZOS COUNTY BOYS AND GIRLS CLUB DEPARTMENT

Club Notes and Farm News by County Agent C. L. Beason

In Placement Training.

Many of the Federal students taking training at the A. and M. College of Texas go into placement training here in Brazos county, taking for their projects poultry, truck and general farming. Among some of the recent students to begin project work are: Theodore Plagens, Kurten, Barred Rocks and general farming; Albert J. Operstny, Bryan, Rhode Island Reds and general farming; J. M. Clary and J. R. Patton, Bryan, Barred Rocks and general farming. Plagens will be located in the Fickey neighborhood on his father's plantation; Clary, Patton and Operstny will be on the Dobrovinsky place on the Leonard road south of Bryan.

Value of Fall Plowing.

Many farmers in Brazos county are taking advantage of the recent rains by starting their plows, either breaking land or sowing small grain for fall and winter grazing, and which will also serve as cover crop, checking soil washing. C. S. Jones, prominent farmer-stockman of Bryan, states that he has two seeders putting out oats for fall and winter pasture. These are one-horse seeders with six drills, sowing an entire cotton middle at each through, thus making it possible to cover a large area with one hand and one team, or horse.

With the future scarcity of feed staring us in the face as a great handicap to farming next year, it would seem wise to plant at least a few acres of oats on good land in order that some early feed might be had next spring. J. Seth Mooring of Steele's Store states that he has three tractors running breaking land from which corn has just been gathered, and that the work being done is so fine that there has been planted to what the land has been planted to this year. There are those who yet claim that fall plowing is not advantageous to crop production, yet W. E. Graham of Rock Prairie pointed out to us that land which was producing right at a bale last year had been flat broke the fall before. Elzie Francis of Tabor states that the land which he flat broke in the fall made a half-bale, while that prepared in the spring in the usual way made only a third of a bale. Of course the suggestion should not apply to sandy land on which there is no green vegetation to turn under, or on which there is not to be some cover crop. The crying need of our soil in Brazos county is humus, and this will continue to be so until we check soil erosion, stop the waste of barn manure, and adopt some method by which vegetation may be turned under to improve the physical condition of the soil, it matters not whether it be sandy or otherwise.

Environments Determine Value.

Some recent real estate deals in this county should serve to show our people the value of a community noted for its progress and friendly spirit. When farm lands, with no improvements except fences, sell for \$50 to \$65 per acre, when other land equally as fertile and less distant from market could be purchased at half the price, one must conclude that there is something in the place, or environment, to cause the difference. Several years ago the people of the Tabor community organized the Tabor Welfare Club for the purpose of social, moral, educational and economic betterment with the result that their schools have prospered and grown as never before, more good farm homes have been built and repaired than, perhaps, in any other community, and a buyer is always ready for any land that may be offered for sale, recently a 300-acre farm selling, it is reported, for \$15,000 spot cash, and another selling for almost an equal sum. Perhaps the Tabor Welfare Club has not always followed as definite a program of community work as it might have done, but their meetings from time to time have helped to create a people together but also causing them to love their community dearly. They have built better than they knew in that which we call "community religion."

'Possum and Taters.

Miss Mary Locke of Tabor is authority for the story of an old negro woman, who, upon viewing the poor prospects for corn this year, said that she had "jest washed her meal sack and put it in her quilt." Perhaps the recent rains will improve

the potato and persimmon crop, and thus give rise to find hopes of plenty of "possum and taters," which old "Uncle Rastus" of Tennessee fame, declared was the "Alpha and Omega" in things good to eat. Old "Uncle Wash Ashford" of the Harvey community still thinks so.

Hog Cholera Losses Heavy.

"During the year ending March 1, last, hog cholera caused losses in this country of more than thirty-two million dollars,"—Southland Farmer.

Good Laying Mash.

Now that eggs are becoming to be a good price, many poultrymen are anxious to produce the most eggs possible. To do this the hens must be fed right. The following is a very good laying mash: 30 pounds corn meal, 50 pounds of wheat bran, 20 pounds meat scraps. This, together with scratch feed and plenty of green feed, ought to produce the eggs, if you have the right kind of chickens. Have you sowed that rape, oats, rye, etc., to furnish green feed for the chickens during the winter?

Visit Community Fairs.

Our community fairs begin this week, Tabor fair opening up on Friday, September 26. It is not enough for the people of that community alone to visit the fair. People of other communities should attend and get whatever lesson may be suggestive for the betterment of the farm and home. Business men who help make possible these fairs should also attend that they may see for themselves whether or not the aid they are giving the fairs is worthwhile in stimulating progress on the farm and in the home and in creating community pride conducive to a better citizenship. Make your arrangements to spend at least a short time, at each of the community fairs.

Moving the Rio Grande.

What does all this buying of turnip seed, rape, mustard, onion sets, etc., mean? May we not look forward to a time in the near future when every home will be amply supplied with an abundance of home-grown vegetables thus relieving the railroads of that long haul of vegetables produced in the Rio Grande Valley to our very doors? We should also remember that turnips and turnip greens without good, juicy pork is like "possum without 'taters'"—no good.

Terracing To Start Early.

Sam Dan Antonio and Charlie Figaroto of the Prospect community were in to see County Agent C. L. Beason this week about help in terracing this fall. Both these farmers have tried terracing and find it a great help in preventing their lands from washing away. The short crop will enable our terracing campaign to start much earlier this year than heretofore. Even then we shall not be able to reach but a small per cent of the farm needing terracing. Team work on the part of the various communities will help put the job over much faster.

FREE BAPTIST SUNDAY SCHOOL CLASS ELECTS OFFICERS AT MEETING

The Philathea class of the Free Baptist Sunday school held a business meeting Tuesday evening at 7:30 at the home of Mr. and Mrs. S. G. Buchanan on Sterling avenue. Mrs. C. B. Thompson was elected teacher and Mrs. R. R. Reynolds assistant teacher. Miss Ona Buchanan was re-elected president, and Mrs. Jack Bullard re-elected vice president. Miss Una Buchanan was elected secretary and Mrs. Harry Edge, treasurer.

KURTEN COMMUNITY FAIR IS POSTPONED

James Lang, president of the Kurten community club, informed County Agent C. L. Beason that on account of the rush among farmers to finish gathering their crops, the Kurten community fair has been postponed, the time to be announced later. Mr. Lang stated that it will be their plan to hold the fair in connection with the celebration of their community house now in course of construction.

Prof. Madison Hall, superintendent of the city schools has returned from a brief visit to Austin.

Mrs. W. S. Lackey and daughter, Mrs. A. B. Duckworth, and grandson, Bryan B. Duckworth, of Beaumont returned to her home in Caldwell this afternoon after a visit to County Agent and Mrs. C. L. Beason.

Miss Aubra Wagner left today for a visit with relatives and friends in Dallas.

Born Saturday night to Mr. and Mrs. Charles Operstny, a 9 1-2 pound baby girl.

Gabe Cazell returned this morning from San Antonio where he accompanied the body of his brother, who died in Bryan Saturday night.

Mr. and Mrs. Chas. S. Gainer, Jr., have returned from an extended business trip over the State, and are at home with Mr. and Mrs. Chas. S. Gainer on South Bryan street.

Tanlac Vegetable Pills, for constipation, made and recommended by the manufacturers of Tanlac.—Adv.

"Before taking Tanlac I was so nervous and nervous that I couldn't

hold down a job to earn a livelihood. I could neither eat or sleep to do any good, was having chills every other day, and felt as tired in the mornings as if I had put in a full day's work.

"In fact, I just seemed to be in the grip of bad health and could see no way out. I couldn't eat a thing but sweet milk and corn bread. The best thing I ever did was when I started taking Tanlac. The results I got from it can all be told in two words—good health.

"Tanlac soon had me eating everything, sleeping like a log at night, and able to put in a full day's work the same as if I had never been sick. I also gained ten pounds and while this was back in 1920 my health is still good. Tanlac gets all the credit for putting me on my feet."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

BAPTIST CHURCH AT STEEP HOLLOW BEEN GROWING RAPIDLY

Rev. J. J. Pipkin, associational missionary for Brazos Baptist Association, held services at Steep Hollow Baptist church Sunday. Rev. Pipkin has been conducting services at this church regularly since the pastor, Rev. J. M. Bullock, was stricken with paralysis early this year. The work done in this connection by Rev. Pipkin is a part of his work as associational missionary—that of looking after churches which are without a regular pastor.

Since Rev. Bullock has been unable to fill his regular appointment at this church, the members have continued to pay his salary regularly and cheerfully. This is a splendid spirit for a church to possess, and indicates the love and esteem in which Rev. Bullock is held.

The Sunday school of this church is growing and improving under the successful leadership of Claude Thompson. The attendance at this service is practically one hundred per cent of the Baptist young people in the community with a good per cent of the grown-ups.

The B. Y. P. U.'s, which were organized by Rev. Pipkin, with the able assistance of Mr. Thompson, Miss Laura Mims and others, are of the best to be found in the
